1998 REVIEW: Gains Found Among All Segments Morgan & Peace Dollars Score Big

To say that the past year for rare coins was fairly good would be an understatement. Actually, it is clear from the Coin Dealer Newsletter statistics that 1998 was an **outstanding year** for the entire rare coin market. Nearly every indices that we track have advanced throughout the year. Many of these advances were very respectable. The accompanying charts portray every date and grade of each coin that we report in the weekly Coin Dealer Newsletter. We compare the first issue of 1998 with the first issue of 1999. This allows dealers and collector/investors an opportunity to evaluate the performance of individual holdings.

In a period that has seen unprecedented records on Wall Street, the rare coin market performed quite admirably, even with very low inflation and weak precious metal prices. The strong demand created by dealers throughout the year was clearly evident. Throughout 1998, collectors were buying quality coins in quantity. Many of these collectors are well heeled financially. The prosperity that our country has enjoyed in 1998 has spilled over on the rare coin market. Profits obtained from the record highs on Wall Street combined with secure feelings bolstered by the strong economy has allowed some collectors to buy the rarities and classics that they had always wanted. It was year of strong Bidding both in the sight-seen and sight-unseen markets. Dealers boldly posted increased Bids for many scarce and rare date coins. We saw interest to be widespread from Early Copper through Gold. Dealers were just as concerned with replacing their quality coins as they were with selling coins. As prices increased, sales of quality and rare coins hit the market. Public auction sales were brisk and convention activity was robust.

The 1998 Market Activity chart supports a portion of the market strength that we have written about throughout the year. Each of the twelve segments ended the year in the **positive**. The strongest jump occurred in Dollars. Circulated and Uncirculated Morgan Dollars led the charge, increasing 22 percent. Demand for key and semi-key dates was obvious throughout the year. Dealers were paying very strong money to buy coins for their customers. They told us that many collectors are working on Dollar sets. Some of them are trying to obtain high-grade examples and are willing to spend very strong money to obtain the specific dates and grades that they need. The sale of a few notable collections of Dollars provided the catalyst needed to generate strong prices. Some MS67

Morgans increasing more than 100 percent include 1878-CC, 1885-S, 1892-CC and 1891. However, Dollar demand and

MORGAN DOLLARS	CDN GRADE	2-Jan-98 BID	1-Jan-99 BID	CHANGE + 21.64%
1878 CC	MS67	7,600.00	22,000.00	+ 189.47%

1922 D	MS65	280.00	260.00	- 7.14%

increases were seen across-the-board. Dealers actively increased their Bids for common date, Circulated Morgan and Peace Dollars. They did this in the face of a sputtering Silver spot.

Peace Dollars were also very impressive. Riding the coattails of their more heralded cousins, Peace Dollars leaped more than 18 percent for the year.

Six segments have enjoyed strong percentage increases ranging from 5.93 percent to 8.75 percent. Mint Sets had a terrific year. Dealers were actively trading Proof Sets and Mint

Sets in 1998. Collector demand was strong for virtually the entire year. The standout, a 1997-S Proof Set jumped 134.78 percent in the reporting period. Overall, Prestige Proof Sets finished the year on the weak side. A slightly better than 100 percent increase was turned in by the 1961 Mint Set. The 1995 Mint Set gained nearly 60 percent.

Uncirculated and Proof Type closed 1998 neck and neck. Both enjoyed strong demand that found each segment finishing with a 7.8 percent gain. Mint State 65 and MS65FH Standing Liberty Quarters topped the list of Uncirculated Type. Proof 65 Type was needed by dealers most of the year. Some Proof 65 Type that did well include Liberty Seated Quarters, No Motto; Liberty Seated Half Dimes; Barber Half Dollars;

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter. It is a report on the Coin Dealer's market, with possible transactions and offers to buy and sell coins not seen. The coins may be certified or Raw, but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT UNSEEN market. Such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a Raw coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter, *Bluesheet*, provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor you may buy and sell coins through a dealer for a fee.
Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Looking at the Walking Liberty Half Dollars, we see that many later date issues in Mint State enjoyed solid gains in 1998.

Gem condition was especially hot as MS65 dates vaulted higher. Silver Commemoratives came on in the second half of 1998 to finish the year with a slight gain. Dealers began Bidding higher amounts for Commems after the summer American Numismatic Associations annual convention in Portland, OR. Silver Commemorative Half Dollars that had better than 25 percent gain in MS66 included the 1937 Battle of Antietam; the 1939 Philadelphia, Denver and San Francisco Arkansas Centennial set; and, the 1936 Norfolk, VA, Bicentennial. Gold Commemoratives were the weakest group closing with only a 0.27 percent gain.

Superior Invites You to Take Part in the Coin Sale of 1999! Don't miss out!

We are not only featuring The Dr. Juan XII Suros Collection of U.S. Overdate Coinage, but we are also offering several other significant consignments — some without reserve. They are older collections, and, in virtually all cases, the slabbed coins are in early version or styled holders. We anticipate total hammer from this sale to exceed \$10,000,000. The following is just a sampling of the many wonderful coins featured in this sale.

The Dr. Juan XII Suros Collection

A Perfect

10 PERFECT REASONS to Consign to Superior Now!

- 1 INTEREST FREE ADVANCE.** Consign to our June 1999 Long Beach Auction by February 28, 1999 and we will make a generous advance on your collection and you will pay no interest.
- 2 NO SELLER'S COMMISSION.** We will charge you no seller's commission on your most expensive lot.
- 3 SENIOR DISCOUNT ON SELLER'S COMMISSION.** 5% off our regular seller's rate.
- 4 30-DAY SETTLEMENT.** You will receive settlement within 30 business days no matter if we have been paid or not.
- 5 FREE TRAVEL.** We will, at our own expense, travel to receive your major holding of \$50,000 or more.
- 6 MAXIMUM EXPOSURE.** Superior delivers a deluxe catalogue to show your coins in their "best light." This catalogue is sent to thousands and thousands of qualified bidders from our extensive mailing list compiled over the years. In addition, all of Superior's sales are now published on the internet, including full color photography and interactive e-mail bidding.
- 7 ONE OF THE LARGEST AND OLDEST.** Superior's business origins date back to 1929. As a major force in the numismatic community, we have conducted countless auctions and set world record prices for our customers. Superior is still operated and managed by a member of the founding Goldberg family.
- 8 BULL MARKET.** With the market experiencing its longest and steadiest advance that we can recall, today's prices for coins are the highest in years, offering the seller this excellent "window of opportunity" to realize strong prices for their coins.
- 9 WE GO THE EXTRA MILE.** The staff at Superior, with an attitude of going the "extra mile" for each and every one of our clients, gives you the edge in selling your coins and the comfort that all is in good hands.
- 10 THE BEST FINDER'S FEE PROGRAM.** If you know of, or have control of any numismatic material that you are thinking of selling, you must call now so that we can strive to mold a program to fit your needs where others could not.

Sounds good, doesn't it? Pick up the phone.
Call **Mark Goldberg** or **Steve Deeds** today!

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise interior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem" full steps rolls (when available) bring higher prices. In the Mercury series, "gem" full bands rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" bring lower prices. Gem roll strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Hoard of 19th & 20th Century Coins Surface Before The Millennium Including 788,000 Buffalo Nickels

by David Sundman

Superb quality rarities with five, six and even seven-figure price tags from the Pittman, Eliasberg and other famous name auctions make for exciting headlines, but hundreds of thousands of collectors quietly appreciate and collect circulated "old coins." Therefore, last year, when a Midwest dealer offered 300,000 Circulated Buffalo Nickels, we at Littleton Coin snapped them up.

Mint State Buffalos are popular, yet it's important to realize that this series, in **all grades**, is a favorite with collectors. Ever since the Buffalo Nickel was released in 1913, its design has been a favorite with the public. Such popularity is most likely a result of the Buffalo Nickel's wonderful design. The Native American on the obverse and the buffalo (properly referred to as the North American Bison) on the reverse, conjure up romantic images of the Western Frontier. Its distinctive design, coupled with the fact that this Nickel circulated during many a collector's youth and is associated with fond memories, only add to the coin's desirability.

In terms of number of coins collected, Buffalos may be the most popular of 20th century coins, next to the Lincoln Cent. Early Date Buffalo Nickels in Circulated grades are some of the most frequently asked for coins. In fact, this nickel is one of the coins we've sold the most since we've been in the coin business.

Coin Hoards

In the past three years, we've bought 9 major hoards and many smaller ones. Each one had a character of its own, as unique as the collector who put all the coins away. While there are hoards of Uncirculated coins out there, the ones we purchased contained mainly Circulated collector coins (with the exception of some Uncirculated Silver Dollar deals). What's **exciting** about these hoards is the sheer number of coins and the variety and dates that turn up. For example, in 1996 we obtained the famous "New York Subway Hoard." This one was unusual because it featured better date coins like the following: over forty-four 1914-D Lincoln Cents (the second scarcest Lincoln in Circulated grades excluding errors

after the 1909-S VDB), twenty-nine 1918/17-D Buffalo Nickels, two hundred forty-one 1916-D Mercury Dimes, one hundred sixty-six 1942/1 Mercury Dimes, twenty 1913-S Barber Quarters, nineteen 1916 Standing Liberty Quarters, and much more. Today they are all gone, sold one by one.

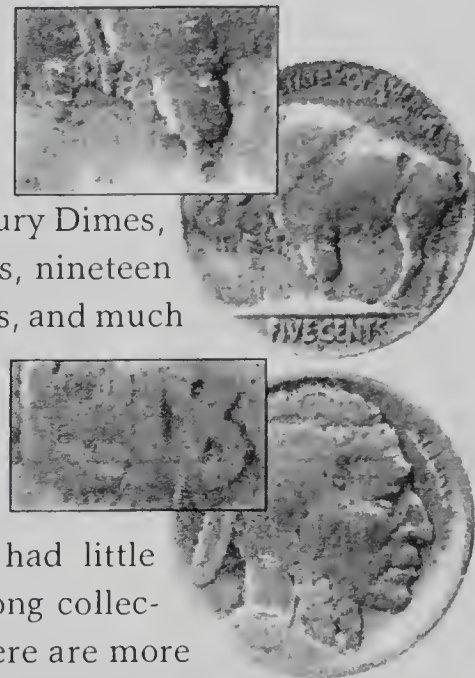

You often hear collectors say hoards like this one will hurt the market, but it has had little effect on price because of strong collector demand. We know that there are more than 100,000 active customers buying these circulated, popular series. Consequently, hoard coins like these are quickly absorbed back into collections without the price suffering a decline. If anything, hoards stimulate demand because they create excitement, and may produce new rarities. The excitement may be **contagious** as new collectors emerge; one might even be inspired to become a collector as a direct result of news regarding a hoard - again, increasing demand.

In 1996, the "Vermont Yankee Hoard" not only brought to light 48 previously unknown and uncataloged merchant tokens, but also seventeen \$1,000 Federal Reserve Notes and thousands of Morgan and Peace Silver Dollars. (Both the "New York Subway" and "Vermont Yankee" hoards were mentioned in Q. David Bowers' informative book, *American Coin Treasures and Hoards*.) Then, two years ago in '97 we obtained a hoard of 112,000 Buffalo and 40,000 Liberty Head Nickels, and in June '98 we bought a nice group of 3,671 Flying Eagle Cents known as the "California Coin Cache." These Circulated Cents were all dated 1857 to 1858 and most were in Good to Very Fine condition.

Yet, for sheer numbers of popular collector coins, it's hard to top January of '98's acquisition of nearly 300,000 Circulated Buffalo Nickels. Besides the sheer magnitude (over 1 ½ tons of nickels), what makes this purchase so interesting is that it all came from one source.

Buffalos Stampede Into Littleton

On January 28, 1998, a Brinks truck pulled up and unloaded seventy-five \$200 bags of Buffalo Nickels - totaling 300,000 coins. In fact, it has probably been many decades since Brinks carried that many Buffalos in one truck because these coins have been out of circulation since the 1960s!

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

Adding to the appeal of this find was the fact that some of the coins were stored in Wells Fargo Bank bags which enhanced their "Old West" image. Just as looking at that big stack of bags was exciting, thinking about the work ahead to process and grade each Nickel was a bit daunting.

It takes a great deal of time to grade, and sort by date, 300,000 coins. First, our staff sorts each Nickel by date and Mint mark, then they grade each one. It took us 300 hours to go through this 1½-ton Buffalo Nickel hoard.

Important Discoveries

Scarce Key Dates and Varieties!

- 1 1918-D "8 over 7" in Very Good.
- 2 1936-D 3½-Legged Buffalos in Fine.
- 1 1937-D 3-Legged Buffalo in Very Fine.

Approximately 16% of the hoard, or 47,000 coins, were dated before 1930. A further breakdown by Mint follows:

Hoard By Mint

- 3,200 (7%) were "D" Mint
- 6,100 (13%) were "S" Mint
- 37,700 (80%) were "P" Mint

Of this group, about 25 percent graded Fine or better. Even this small number is very special because prior to the 1930s, the Nickel had significant buying power. Lots of 5¢ pieces went into circulation. It is easy to see why dates and Mint marks wore out, so the coins that graded Fine and better are really exciting!

The largest portion of the total hoard, 84% or 253,000 coins, were late dates 1930-1938. These were broken down by Mint as follows:

1930-1938

- 28,000 (11%) were "D" Mint
- 20,000 (8%) were "S" Mint
- 205,000 (81%) were "P" Mint

Approximately 63% of the 1930-1938 dates fell into grades ranging from Fine to Extra Fine, with the balance grading lower. This higher percentage of better grades reflects the fact that these later dates did not circulate nearly as long as the early dates before they were pulled from circulation.

Those of us over 50 years of age, who began collecting in the 1950s, recall that with the popularity of the 1955/55 Doubled Die Lincoln Cent, the hobby of coin collecting experienced a great boom which continued until the early 1960s. During that time, nearly all better date coins were pulled from circulation. Then, after Silver was removed from coinage in 1965, most remaining Silver coins, and any remaining older types were saved by the public.

It's interesting to note that what turned up in this Buffalo Nickel hoard pretty much followed original mintage figures. In other words, we found only a small percentage of early dates which had lower mintages. When we looked at the more common dates in the late twenties and thirties, we found that the "P" Mints, which had higher mintages, were far more plentiful than the Denver and San Francisco branch Mints.

In a matter of 9 months, most of the 300,000 Buffalo Nickels were sold to our customers who are scattered all over the United States. These pieces were sold one at a time through different avenues to Buffalo Nickel collectors. Each was purchased by someone building date and Mint mark sets. I know that all found happy homes.

An Even Larger Hoard Becomes Available

In 1998, Littleton bought an even larger hoard of collector coins - a group of over 1.75 million Buffalo and Liberty Head Nickels and Indian Head Cents. The Buffalo Nickel portion is nearly 500,000 coins (122 bags). I am amazed that in the last 12 months we could make two large acquisitions of these popular coins. It makes me wonder what still might be uncovered in the future. Someday we'll probably look back and say, "Remember when."

Imagine If Banks Did Business Like This.

ANNOUNCING

\$ \$ SUPERIOR'S INTEREST-FREE ADVANCE \$ \$

Imagine walking into a bank, asking for a loan and getting it — interest free! At Superior, it really is that simple. And you don't even have to show up in person to get it. Here's all it takes:

- **Consign your coins to Superior's June 1999 Pre-Long Beach Coin Auction by February 28, 1999**
- **We will make a generous advance on your collection**
- **And you will pay no interest**

That's it. No questions asked. As a licensed lender by the State of California, Superior Stamp & Coin is in a unique position to advance the cash you need immediately. When you're ready to sell, we're here to help you get the most out of your collection.

Providing interest-free advances is just one way we try to get the most for you. Dealing with Superior means you are dealing with one of the oldest and largest numismatic auction firms in the United States. We know the value of your collection, how much time and effort you've spent collecting, and, best of all, we know how to market your coins so you realize the highest prices at auction.

Make The Superior Choice — Consign Today!

1995 W Olympic Torch Runner BU / 1995 W Proof	160.00	175.00	123.00	130.00	Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.				
1995 W Olympic Stadium BU / 1995 W Proof	175.00	+ 185.00	150.00	160.00	MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.				
1996 W Flag Bearer BU / 1996 W Proof	218.00	+ 240.00	190.00	210.00	MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.				
1996 W Cauldron BU / 1996 W Proof	218.00	+ 240.00	190.00	210.00	MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.				
1996 W Smithsonian Anniversary BU / 1996 W Proof	220.00	235.00	160.00	170.00	MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.				
1997 W Jackie Robinson BU / 1997 W Proof	230.00	260.00	145.00	160.00	MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.				
1997 W Franklin Delano Roosevelt BU / 1997 W Proof	165.00	180.00	135.00	145.00	Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.				

<

IF YOU HAVE COINS TO SELL... WHETHER IT'S A \$2,000,000 1804 DOLLAR OR A \$30 COMMON DATE MORGAN DOLLAR

The only strategy that makes sense...is to call the *King of Cash* **before** you actually sell your coins.

Nobody spends more money buying U.S. coins from collectors and investors like yourself than Spectrum Numismatics! And the nice thing about Spectrum is we desperately need to buy **all** of your coins. That's why our name is Spectrum...we buy it all.

IT'S EASY TO DO BUSINESS WITH SPECTRUM

Spectrum Numismatics desperately needs your coins. Its coin-hungry clients have a huge appetite for Uncirculated pre-1950 U.S. coins. Spectrum has no choice. They must buy your coins or lose their clients. That's why 67% of all Spectrum purchases are from coin dealers. The professionals, the people in the know, the people who make their money buying and selling coins, sell them to Spectrum. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan/Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially COMPLETE COLLECTIONS!

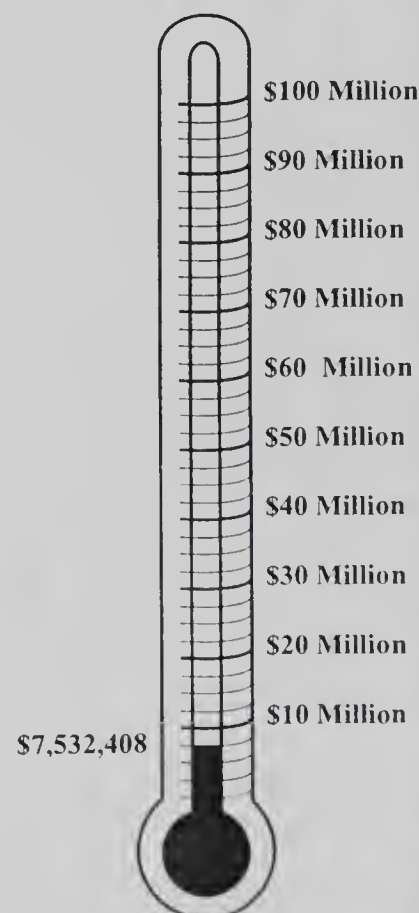

SPECTRUM IS DESPERATE FOR YOUR COINS

The best time to sell is when you have a willing buyer, and nobody is more willing than Spectrum to trade some cold hard cash for your coins. Our customers are screaming for coins. We estimate that we need to spend \$100,000,000 this year to satisfy the needs of our clients. Check out Spectrum's "*King of Cash meter*." So far this year, we've spent \$7,532,408. We need your help in order for us to be able to satisfy our clients and purchase the necessary \$100,000,000 worth of coins this year. If you have any Uncirculated pre-1950 U.S. coins for sale, there's only one strategy that makes sense. Before you sell any coins, call Spectrum. You can contact the Spectrum buyers any weekday between 8:00 a.m. and 5:00 p.m. California time. Just tell them you want to talk to the *King of Cash*.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at Long Beach Coin & Collectible Expo, February 11 to 14. Spectrum will be there for one reason and one reason only....to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have Uncirculated coins to sell and want to realize the highest possible price for your coins, then you should go to Tables 510 & 613 at Long Beach. Tell them you want to speak to the *King of Cash*.

Numismatists Online: Auctions, Collecting and More!

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

UNITED STATES COMMEMORATIVE PROOF GOLD COINAGE

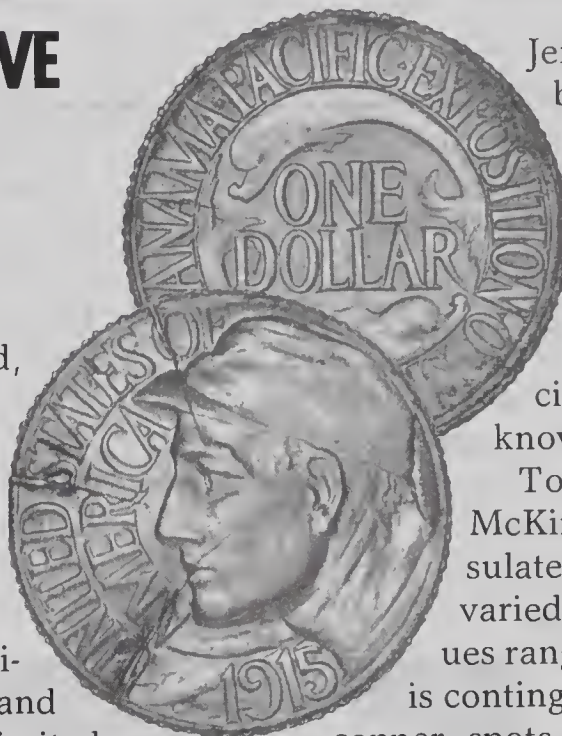

by Anthony Swiatek

Proof Commemorative coinage was struck in Gold, Silver, and Copper. They offer the beholder brilliant Proof surfaces, as in the case of the World's Columbian Exposition Half Dollar, the Isabella Quarter, the Gold Dollars produced for the Jefferson and McKinley Louisiana Purchase Exposition, the Lewis and Clark Exposition and the McKinley Birthplace Memorial. They also reveal to the collector the semi-brilliant surfaces of the Panama Pacific Half Dollar and Dollar Proof trial pieces. The series also flaunts a limited quantity of Matte Proof Half Dollars, as the 1921 Missouri 2x4, the 1926-P Oregon Trail, the 1938 Arkansas set, etc., as well as one very rare 1926 Sesquicentennial \$2½ Matte Proof Gold piece. Let us first cover the Gold strikings.

1903 JEFFERSON AND MCKINLEY LOUISIANA PURCHASE PROOF GOLD DOLLARS

This issue was the **first official** Commemorative Proof coin struck for this nation. The Philadelphia Mint produced 100 brilliant Proof coins of each design bearing the anniversary date 1903. These pieces were not offered for sale to the public. They were only distributed to a select group, such as government and exposition officials, as well as preferential insiders. Just believe that some influential coin collector(s) orchestrated these creations. Each was placed into an opening of an imprinted cardboard holder. The coin was covered by a waxed paper window — creating a matte Proof look. Matte Proofs do not exist! The accompanying certificate was signed by Rhine R. Freed, Coiner and John M. Landis, Superintendent, Philadelphia Mint. As a guarantee against tampering, it was secured with heavy string embedded in a dark red Philadelphia Mint wax seal, near its end. It bears the words SUPUSMINT PHILA with a five-pointed star in the center. Be aware of any wax seal which has been adulterated. The **primary** objective may have been substitution of the genuine double struck Proof with a prooflike or semi-prooflike or satiny surfaced coin.

If such were the case, the goal is to first separate the heavy string from the original or damaged seal. (Improper handling can cause the latter.) I have seen several frames where the heavy string was forced into a softened wax, then shaped to look as round and original as possible. Missing was the aforementioned wording and star. The coins contained were not Proofs! One dealer purchased a

Jefferson Proof housed in its cardboard page and frame at auction. He then decided to place the said in the firm's next auction. They claimed the coin was allegedly replaced, based on a tampered red wax seal. It was sold elsewhere. If the seal looks suspicious, seek the advisement of the knowledgeable.

To date, 47 Jefferson and 46 McKinley brilliant Proofs were encapsulated by NGC and PCGS. Grades varied from PR-60 through PR-67. Values ranged from \$1,700 to \$25,000. Price is contingent upon the coin, the location of copper spots, buyer and seller. Ditto those housed in original undoctored frames.

1904 LEWIS AND CLARK EXPOSITION GOLD DOLLARS

Approximately ten 1904 Lewis and Clark brilliant Proof Dollars were struck by Chief Coiner Rhine R. Freed on December 19, 1904. They reside with the Smithsonian Institution, as well as the American Numismatic Society. I have placed two of the double struck pieces in private collections back in 1979 and know of five other Proofs. To date, none have been forwarded to the grading services for encapsulation.

1905 LEWIS AND CLARK EXPOSITION GOLD DOLLARS

Possibly, the same number of brilliant Gold Proofs was struck by Freed, right after the 1904 double strikings, in December. Were both dates struck as Proof trial pieces for the person responsible for the Jefferson and McKinley Proof Dollars? I would bet on it! One of these pieces also resides in the Smithsonian. I placed one in private hands in 1982. I know of two others. None have been encapsulated to date. Were they rated PR-64 or higher, each date could easily bring between \$50,000 and \$100,000. I know of five well-to-do collectors who would immediately obtain either or both dates when they are made available. They are equally as rare, but that 1905 issue possesses a special charisma.

1915-S PANAMA PACIFIC HALF DOLLAR EXPERIMENTAL PROOFS: Some time between March 22, 1915 and May 22, 1915, trial strikings of the first Silver Commemorative struck at a branch Mint and the first to depict Miss Liberty without the S Mint mark were made in Gold (2) (Pollock 2031 — Judd 1793); Silver (6) (Pollock 2029 — Judd 1791) and Copper (4) (Pollock 2030 — Judd 1792). They were possibly created for Treasury Secretary William

Thank You.

We couldn't have done it without you.

Superior Stamp & Coin would like to thank all of the consignors and bidders who participated in our February Pre-Long Beach Coin Auction. Without you we could not have had our most successful auction in nearly a decade.

Because of you, we were able to attain an astonishing \$9,485,733.57 in total net prices realized — an extremely successful sale that surpassed our lofty expectations. With an excellent array of material and strong bidding, this sale should serve as a reminder to the entire numismatic community that we are indeed in a hot and ever increasing boom market.

Let's keep it going. Superior has another star studded auction planned for its next **Pre-Long Beach Coin Auction sale in June 1999.** But we again need your help. You still have time to join in. **The consignment deadline for this sale is April 21, 1999.**

Remember, Superior has the most creative plan in the industry for consignors:

- **Interest Free Advances**
- **The Most Competitive Commission Rates**
- **A Finder's Fee Program that is Second to None**

We paid out a hefty six-figure sum to the lucky ones who brought us collections for our February sale!

We can do the same for you. Pick up the phone today and call **Mark Goldberg, Steve Deeds** or **Robert Hughes** to discuss the consignment of your coins or currency. Afterall ...

**It's Not Just Our Name That Makes Us Superior.
It's You.**

1996 W Cauldron BU / 1996 W Proof	218.00	240.00	190.00	210.00	GREYSHEET GRADING STANDARDS								
1996 W Smithsonian Anniversary BU / 1996 W Proof	220.00	235.00	160.00	170.00	Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.								
1997 W Jackie Robinson BU / 1997 W Proof	230.00	260.00	145.00	160.00	MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.								
1997 W Franklin Delano Roosevelt BU / 1997 W Proof	165.00	180.00	135.00	145.00	MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.								
MODERN AMERICAN EAGLES					MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.								
All Modern Eagles and Sets must contain complete original U.S. Mint packaging.					MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

Single copy price: \$4.00

A CLOSER LOOK OPPORTUNITIES IN THE MARKETPLACE

by Bradley S. Karoleff

The marketplace can be defined in many different ways depending on one's perspective. Some numismatic press often use multi-thousand dollar coins sold at auction as a barometer. Dealers often look only at their recent sales for guidance, and collectors focus only on their favorite issues as the determining factor in their opinions. All answers are **partially** correct, but inherently inaccurate. As we all know, the marketplace cannot be defined as a whole. There are individual segments that act independently of one another. There are relatively few times that the *entire* United States series of coins have acted in the same manner. The true, long term, heart of the marketplace is in the hands of the collector, who recently, more than ever before, is interested in variety collecting.

American numismatics evolved from its earliest days of collecting date sets in the mid 1800's to collecting by date and Mintmark with the publication of *A Treatise On The Coinage Of the United States Branch Mints*, by Heaton in 1893. Serious collectors eventually began assembling date and Mintmark sets for nearly all the American series of coins. The post World War II era ushered in higher prices for choice and rare coins, which made Type collecting popular. This allowed most collectors to have an example of each US coin without having to purchase the expensive date and Mintmark combinations. Further price increases, accompanied by the publication of numerous specialty books, have led many collectors to variety collecting.

What is a die variety? A die variety is the product of the mating of a pair of dies to produce a coin. The condition of the dies (e.g. cracks, clashmarks, cuds) does not make a new variety, but a new *die state*. Each time one, or both, of the dies are changed, the resulting combination produces a new die marriage, or variety. This is the foundation for the systematic collecting of a series of coins made from each set of dies used in that design's life.

Variety collecting for Large Cents dates back well into the last century, following the publication of many fine essays, monographs and books on the subject such as the following:

The US Cents of 1793, by Crosby in 1869, *The Cents of the US*, by Doughty, in 1890, *Monograph of US Cents and Half Cents 1793-1857*, by Frossard, in 1879, among others.

The Silver Sister issues have paled in comparison to their copper counterparts not only in research publications, but also in collector base. These shortcomings may be attributed to the low initial cost to acquire average cents compared to the specie issues circulating alongside them. The first serious endeavor into the Silver series by variety was the *Haseltine (Randall) Type Table* in 1881. The *Type Table* mainly identified half dollar varieties, concentrating on the issues of 1795. This remained the only marginally viable work until the 20th century. The Browning book on quarters was first published in 1925 and is still the standard reference today, in an updated version. Beistle wrote a book on half dollar varieties

published in 1929 which was the standard until the late 1960's. Valentine, in 1931, published his treatise on half dimes which is still considered the seminal work on the subject. Bolander followed in 1950 with his work on the Bust Dollars. Some of these works lacked the depth needed to fully appreciate the series covered. All lacked the collector base of the copper issues.

Sheldon, with his work, *Early American Cents*, published in 1949, ushered in the modern era of die variety research. He refined the earlier works on the cents (making identification easier), and provided condition census information as well as photos of the varieties. The most available of the Silver series, the Bust Half Dollars, had to wait almost another 20 years for a comparable manual. Al Overton first published his work on halves in 1967. This text proved to be difficult to use and was quickly revised in 1970, and again after his death, by Don Parsley in 1990. A new photo identification guide to supplement the *Overton*, by Glenn Peterson, is due for release later this year. The Bust Half Dime series is being covered by a new book due out later this year, written by Russ Logan and John McCloskey, and published by The John Reich Collectors Society. It will be similar to the work on Bust Dimes penned by Davis, Logan, Subjack, and McCloskey, which was printed by the Society in 1984. The collector of Bust Quarters is now using an updated *Browning*, revised by Walter Breen in 1992. Dollar collectors are awaiting a new update on *Bolander* (due out soon), by Jules Reiver. They were lucky enough to have had a new book by Q. David Bowers and Mark Borchardt in 1993 to stir their interests.

What does this mean for the collecting public? There is more in-depth research available for the collector to build a base of knowledge to assist him/her in collecting endeavors. There are now guides to help the collector to systematically identify, and acquire, coins needed for a collection. Specializ-

What is a die variety?

A die variety is the product of the mating of a pair of dies to produce a coin.

What is a die state?

A die state is the condition of the dies (e.g. cracks, clashmarks, cuds).

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

ing in today's marketplace is the only way for many collectors to build a meaningful collection. These works help bring focus to a collector that may be acquiring many different, unrelated, coins. Specializing also allows collectors to become more familiar with a particular series than many of the dealers they will be encountering. This knowledge will give them the opportunity to make wise choices in purchases, avoiding costly mistakes. Such intense interest in a few series will foster continued personal research and interaction with other like-minded collectors. Die state studies (the study of the deterioration of the dies through the abnormalities shown on the coins, die cracks, clashmarks and in extreme cases, cuds) may become popular with many of the new variety collectors. These studies allow the student to become more familiar with the minting practices used by the U.S. Mint.

How does this impact the average dealer? Collectors forming variety and die state collections need to buy more than one coin of each year to complete their collections. This affords the opportunity to make more sales of the same series of coin(s). Dealers that also study the series can ask more for scarce and rare varieties. Dealing with knowledgeable collectors is often easier than trying to educate the customer for each sale. Variety collectors are usually active through all Types of market cycles. The dealers that cater to them will be partially insulated from a down market, as these collectors are likely to continue to add to their collections. To obtain the benefits of this expanded market, the dealer must respect the variety collector's needs. This would include the opportunity to identify the variety of a coin not attributed by the dealer. The collector must be certain the piece is one that is needed to fill a slot in the collection. This takes slightly longer than looking at a checklist to see if the date and Mintmark combination is missing. Consequently, collectors must be aware that the dealer's time is valuable. Courtesy dictates that the collector obtain the dealer's permission to attribute a coin prior to referencing his book. He must then make a decision to purchase or pass on the coin in a timely manner.

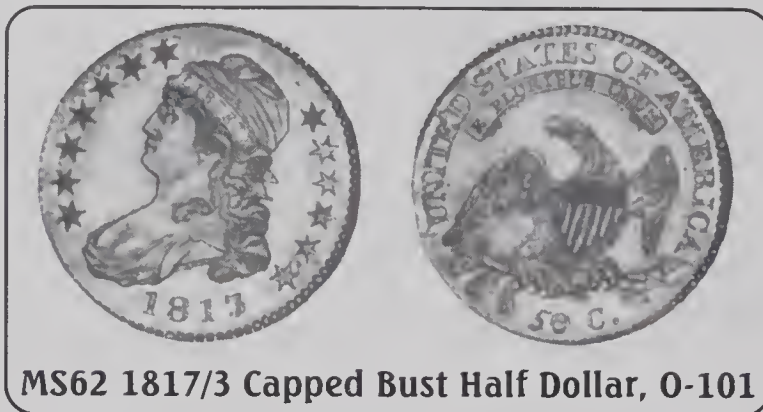

Often, variety collectors desire raw instead of slabbed coins. They collect them in a wide range of grades, but generally require original surfaces. Dipped out and problem

coins are virtually shunned by the variety specialist. Unusual characteristics displayed by a common coin, such as exceptionally strong or weak strikes, often make it a desirable coin to the specialist. Other anomalies like counterstamping, enameling, and love token engraving can make coins of their favorite series appealing, opening doors for additional sales. Dealers that research their own inventories can often reap the rewards of finding hidden "gems" that can be retailed to collectors for more than Type coin prices.

The aforementioned books will be the starting point for those interested in assembling variety sets of these series. Another opportunity for gathering information will be a specialty club devoted to the study of the series chosen. These clubs generally have a journal issued with the most updated research available on the series they cover. Most of these specialty clubs conduct meetings at regional and national shows where information can be shared, and knowledge gained, from veteran collectors with similar interests. The opportunities available today far outweigh those offered to previous generations.

Variety collecting is not limited to the series I have covered so far. There are opportunities available to the collector of any series of coins. The research into the varieties available to the Liberty Seated specialist is expanding at an encouraging rate. There are books available on the half dimes, dimes, quarters and half

dollars. Dollar collectors need look no further than the Van Allen, Mallis tome. There is a wonderful series of Cherry Pickers guides by Fivaz and Stanton to identify many of the collectible varieties from the modern series. New variety books on Indian Cents, Lincoln Cents, Repunched Mintmarks and Doubled Dies are only a few of what are, and will be, available. A little effort on the part of any collector will allow access to considerable information on favorite series of US coins. Opportunities abound for the astute collector and attentive dealer. Variety collecting is obviously entering its Golden Age.

Imagine If Banks Did Business Like This.

ANNOUNCING

\$ \$ SUPERIOR'S INTEREST-FREE ADVANCE \$ \$

Imagine walking into a bank, asking for a loan and getting it — interest free! At Superior, it really is that simple. And you don't even have to show up in person to get it. Here's all it takes:

- **Consign your coins to Superior's June 1999 Pre-Long Beach Coin Auction by April 23, 1999**
- **We will make a generous advance on your collection**
- **And you will pay no interest**

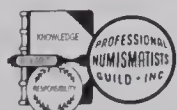

That's it. No questions asked. As a licensed lender by the State of California, Superior Stamp & Coin is in a unique position to advance the cash you need immediately. When you're ready to sell, we're here to help you get the most out of your collection.

Providing interest-free advances is just one way we try to get the most for you. Dealing with Superior means you are dealing with one of the oldest and largest numismatic auction firms in the United States. We know the value of your collection, how much time and effort you've spent collecting, and, best of all, we know how to market your coins so you realize the highest prices at auction.

Make The Superior Choice — Consign Today!

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Arngud Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

UNITED STATES BRILLIANT AND MATTE PROOF SILVER COMMEMORATIVE COINAGE 1892 - 1946

by Anthony Swiatek

The genesis of these very special creations became a reality because of a wealthy and prestigious coin collector, by the name of Col. James W. Ellsworth. In 1892, the Remington typewriter people offered to pay the World's Columbian Expositions Commission - for publicity purposes - \$10,000 for the first Columbian Half-Dollar produced. (The average blue-collar salary was approximately \$260 per week.) It appears the colonel wanted this coin for his collection.

Possibly weeks before the scheduled striking, Col. Ellsworth met with the Expo's president, Harlow N. Higinbotham. Ellsworth requested a letter instructing the Superintendent of the Philadelphia Mint to give him the first 100 specimens struck after production of the Number One \$10,000 coin. He exclaimed that these would be used for presentation to the Exposition's Directors and their wives, railroad officials and others deemed important. (The same story was most likely later offered to Superintendent Bosbyshell.) Ellsworth was informed that such was impossible! Why? He contracted with his friend, Joseph K. Robinson, who offered the double-face asking price for the first 500 pieces struck. Morally, Higinbotham would not change his mind. The only letter the Expo's president agreed to write was to ask the Superintendent to single out numbers 1, 400, 1492, 1892 (anniversary dates), the last coin struck, and request they be sealed separately and accompanied by an individually signed certificate. Ellsworth was furnished with this letter and absolutely no authorization whatsoever from the

Exposition's president, who didn't know the difference between a Proof coin and an Uncirculated coin and who could care less. The coin collector then had the brass to instruct Bosbyshell to strike the \$10,000 Remington first creation as a Proof! He was directed to do likewise with the following 100 coins, which were to be placed in numbered envelopes: the 400, 1492 and 1892 coins were to be double struck as Proofs and each accompanied by his signed certificates. He also requested the first strike 1893 issue be documented for Higinbotham. On November 19, 1892, 103 pieces dated 1892 were double struck by hand at the Philadelphia Mint.

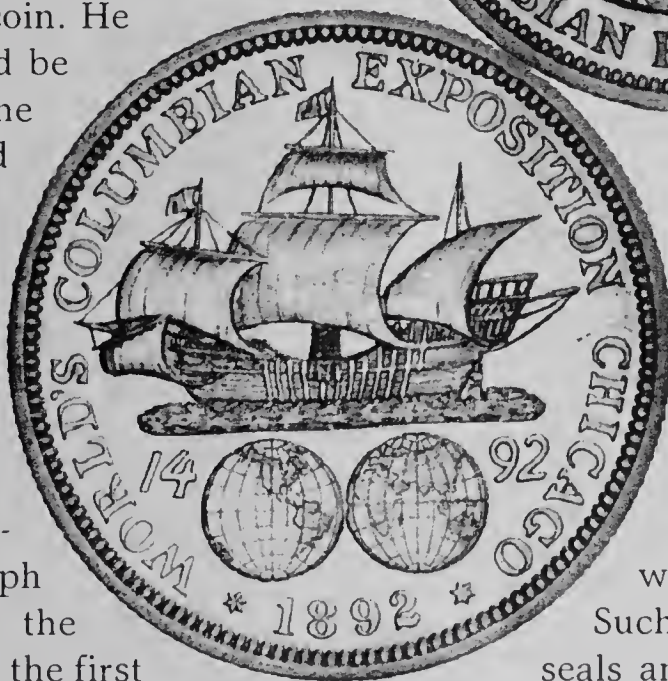

Before the November 19, 1892 striking ceremony at the Philadelphia Mint, a blank with a planchet flaw was somehow selected for the first Proof to be created. How could this happen to a \$10,000 production? The coin was rejected and later placed in a purple glassine envelope marked "2", in black ink. Before the next striking, the planchet was carefully examined with a microscope, and found to be perfect. Coiner Steele, Chief Mint Engraver Barber and Superintendent

Bosbyshell examined the struck Proof. It was a \$10,000 marvel of perfection!

The Colonel was a wealthy and prestigious person. His collection consisted of such coinage as the Brasher doubloon, two 1804 Dollars, four 1783 Constellatio Nova silver pieces and virtually every other rarity to date! Would it not be a score to add to his collection? We are talking about the actual first 1892 Proof struck, with flaw, and possibly the first 1893 production.

Such was housed in a round pill box with red waxed seals and a gold medal within one seal, the size of a Commemorative Gold Dollar, depicting Oliver C. Bosbyshell. Certainly appears that way!

On January 10, 1893, the Philadelphia Mint's third shipment arrived at the Higinbotham Commission's office in Chicago. The keg was marked with the word "SPECIAL." A letter from the Mint Superintendent, dated January 4, 1893, explained that the enclosed was \$947.50, instead of \$1,000 face value souvenir Half Dollars. Why?

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

It contained a separate box housing the 100 Proofs, the 1893 striking (in a paste board box and the anniversary coins with documentation). Five Unc. Columbians were kept by Bosbyshell with Higinbotham's permission. The President was engaged by the Colonel's deviousness. Major confrontations followed, with Ellsworth unsuccessful. The coins were placed in a safe deposit box in the Illinois Trust and Saving Bank. Ellsworth was unsuccessful, since he had no official authorization from the President or Expo officers for his actions! Thus, he was not entitled to them. Even his political connections did not help. On Feb. 3, 1894, after dinner at Higinbotham's home, Joseph K. Robinson opened the special package, which remained sealed for almost 13 months. He was given all even numbered Proofs (2-100). The President gave his wife #3 and retained the balance (5-99).

Would it not be a score for Colonel James W. Ellsworth to add the actual first 1892 Proof Struck, with flaw, and possibly the first 1893 production to his collection?

Today, the \$10,000 Wyckoff Seamans and Benedict Proof is vaulted in Chicago's Field Museum with Columbus' head rotated 40 degrees west. Before it was permanently sealed on June 5, 1893, in a heavy glass-cased brass frame, with accompanying documentation (\$10,000 check dated September 29, 1892, mint certification, etc.), the coin was delicately nicked in the field with a pocket-knife. Where? In back of Columbus' neck above the garment's collar. It seems that Expo President Higinbotham wanted this identification mark present.

The 400th, 1,492nd and 1,892nd anniversary date 1892 coinage, along with the first struck 1893 Columbian, reside at the Chicago Historical Society (Clark St. at North Avenue). In 1976, I convinced its Director, H.K. Skramstadt, Jr. and its Chief Curator Joseph B. Zywicki, to open the linen envelopes which housed the grey Proof coinage, covered with cotton and sealed with its accompanying documentation, since November 19, 1892!

The first 1893 World's Columbian Exposition Half-Dollar is also housed at the Society. Inspections by Ed Milas and later me (1984), concluded that this grey coin, housed in the aforementioned paste board box and covered with cotton, is not a Proof, but a Deep Mirrored Proof-Like striking. It simply lacks your total Proof striking characteristics of the 1892 issue, such as fully rounded denticles or beaded border on sides, sharp portrait definition on Columbus, as well as the reverse ship and wave details. Wire rims are not clear-cut evidence that the coin in question is a Proof. Pieces with DMPL and satiny surfaces flaunt the said. It does possess a deeper mirrored surface than the 1892 Columbian issue that, upon inspection, causes one to label the piece a Proof. Did Colonel Ellsworth have some person at the mint do him a special favor and create a few genuine 1893 Proof pieces? Anything is possible!

To date, 64 1892 Proofs have been encapsulated by NGC and PCGS. They grade between PR-55 through PR-68. Price is dependent upon the coin's eye appeal, strength of grade, buyer and seller. Values can range from \$1,500 to \$75,000+. Three 1893 strikings were encapsulated by both services combined. They range from PR-63 to PR-65. You must be the arbiter on this issue.

Location Isn't Everything. It's The Only Thing.

Take Advantage of Superior's Location in America's No. 1 Coin State!
Consign to Our September 19, 20, 21, 1999 Pre-Long Beach Coin Auction Today!

Superior Stamp & Coin, "America's Numismatic Auctioneers"™, is now accepting consignments for its upcoming September 19, 20, 21, 1999 Pre-Long Beach Coin Auction.

As you may realize, California has regained its status as the No. 1 coin state in America with more retail sales and purchases involving numismatics than ever before. And, of course, southern California is at the center of that action.

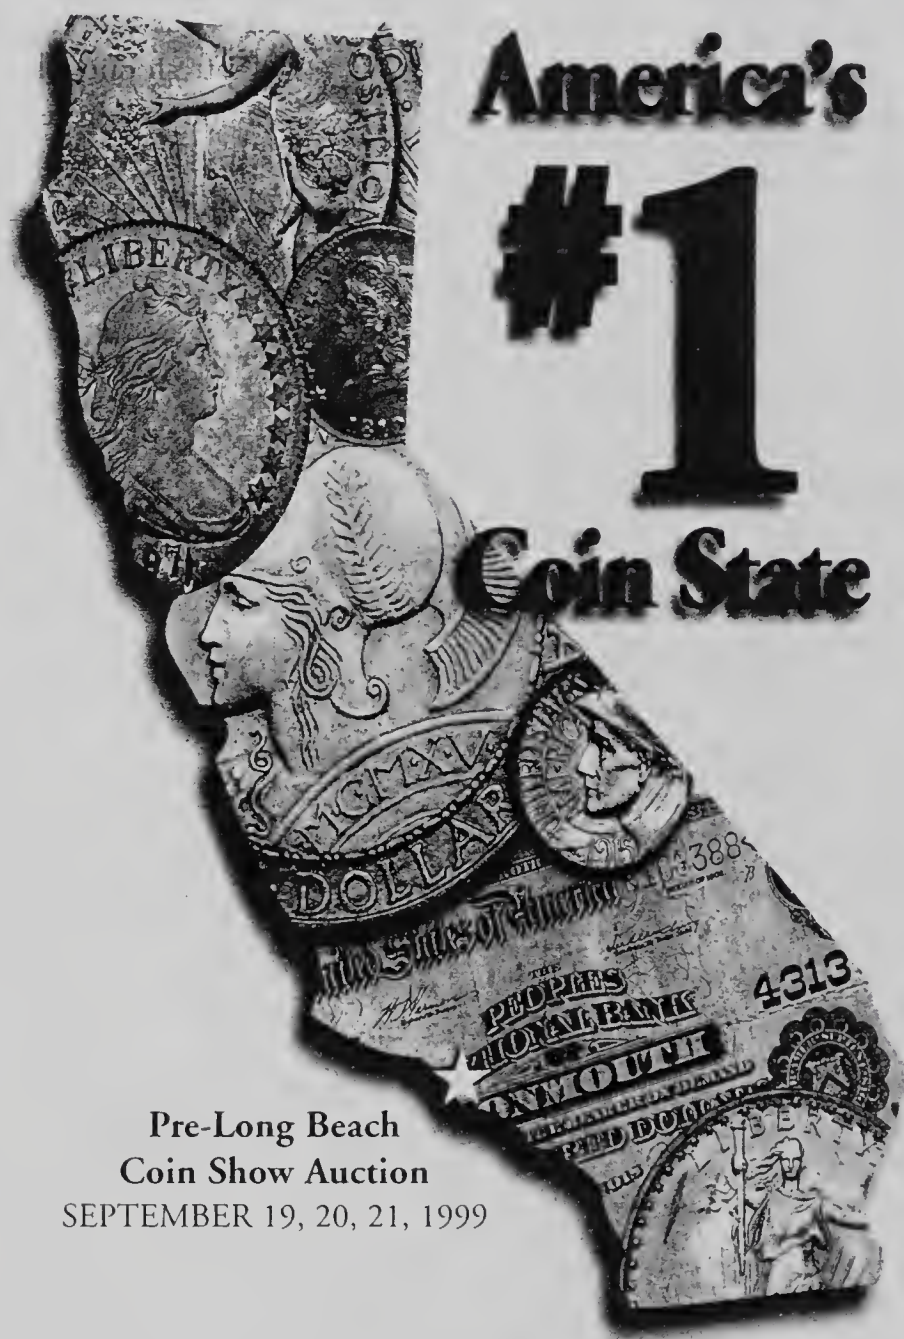

It is imperative that you are careful to choose the best possible venue when selling your coins or currency. Superior is located minutes north of Long Beach in Beverly Hills, one of the wealthiest communities in the world. When you add that to the strength of today's coin market along with the No. 1 coin show in America's No. 1 coin state, you have an unbeatable combination.

The true test of how an auction house has done for its consignors is repeat business. Our February 1999 Pre-Long Beach auction was our largest and most successful since 1990, with \$9.4 million in net hammer prices realized. We are proud to announce that at least three major consignors—each of which consigned at least a million dollars worth of coins to our February sale—will once again be represented in our September 19, 20, 21, 1999 Pre-Long Beach sale.

What does this tell you? It tells you that Superior performed for its consignors, so much so that they came back to sell more with us.

Join these and other satisfied consignors NOW!

Contact **Mark Goldberg, Steve Deeds or Robert Hughes** to consign to this exciting and highly anticipated event.

Pre-Long Beach
Coin Show Auction
SEPTEMBER 19, 20, 21, 1999

You must hurry! The deadline for consignments is August 1, 1999

Consignments received by July 1, 1999 will receive a special rate. Please call for more details or to reserve space.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then **Spectrum Numismatics** is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. **Spectrum** offers you:

*Immediate Payment.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*Top Prices.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**.

*Generous Finder's Fees.

In 1998 alone **Spectrum** paid \$3,129,105 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*Fair Trades.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*Market Knowledge.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*Financing Packages.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any Uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash! Call collect and tell them you want to talk to the **King of Cash**.

Liberty Seated Half Dimes What's Rare And Underrated?

By Jim O'Donnell

Collectors who embark on a voyage that takes them back to the middle 19th century would find quite a different world, one that is without cars, airplanes, or computers. It was a time when our country was just starting to understand its own identity. We had gained our independence less than 100 years ago and were building a country for ourselves and our children. In the late 1830s, our everyday coinage would be dominated by a new design that was introduced in 1837. Christian Gobrecht was instrumental in bringing the new Liberty Seated design to fruition. Gobrecht began working at the Philadelphia Mint in July 1835. Although he was an extremely talented engraver, it was a stroke suffered by William Kneass, Engraver of the Mint, that made the decision of Director Robert Patterson to hire Gobrecht, as Assistant Engraver, an easy one. Previously, Patterson had hired notable Philadelphia artists Thomas Sully and Titian Peale to begin work on a new coinage. Once Gobrecht began his work on the project, and had his ideas accepted, the Liberty Seated designs finally became a reality. These designs, and their variations, adorn coinage from Half Dimes through Dollars. This article will concentrate its analysis on the Liberty Seated Half Dime.

The Liberty Seated Half Dime series begins with 1837 and ends with 1873. This is a relatively short series, sporting the original design of Christian Gobrecht in 1837-1840. Half Dimes struck from 1840-1859 were designed through the collaborative efforts of Gobrecht and Robert B. Hughes. The remainder of the series, from 1860-1873, were brought about through the designs of Gobrecht, Hughes and James B. Longacre. Liberty Seated Half Dimes have a composition of 90 percent silver and 10 percent copper, and were struck at the Philadelphia, New Orleans and San Francisco Mints. The mint mark is located on the reverse, either within or below the wreath.

The Liberty Seated Half Dime series is certainly the most affordable of the Liberty Seated Type that includes the Half Dime, Dime, 20-Cent piece, Quarter, Half Dollar and Dollar denominations. An important reason we come to this conclusion is that the Liberty Seated Half Dime series ended in 1873. The Liberty Seated Dimes, Quarters and Half Dollars all ended in 1891. Liberty Seated Dollars also ended in 1873. However, no Carson City coinage was struck in the Half Dime denomination.

Many of the Carson City coins of the other Liberty Seated denominations are very rare and expensive, adding considerably to the collector's budget. Unfortunately for collectors, this is true even if someone intends to build a Circulated set. The Carson City coinage of the Liberty Seated series is a serious financial challenge even in the Circulated grades. Yes, the Liberty Seated Half Dime has the extremely expensive and rare 1870-S. However, the 1870-S is unique, and a set is considered complete without it, along with the Transitional Pattern issues of 1859 and 1860. The 1859 Transitional Pattern combines the 1859 obverse with the 1860 reverse. The 1860 Transitional Pattern also combines the obverse of 1859 with the reverse of 1860.

The following is a list of some of the better dates in the Liberty Seated Half Dime series. At the end, I will rank them according to both condition and rarity:

1837 No Stars: Both varieties, the Large and Small Date, are easily obtainable in Extremely Fine or better condition. Also, they are both very common in all grades from Good to Brilliant Uncirculated.

1838-O No Stars: In my opinion, this is a very underrated issue in XF or better condition. Collectors trying to locate an example higher than XF will have their work cut out for them because it is very

rare in AU and especially rare Mint State.

1839-O: This is another New Orleans issue that is more difficult than the price indicates. It is also **underrated**.

1840-O No Drapery: Here is an issue that gets very little consideration because its counterpart, the 1840-O Drapery, gets all the recognition of the 1840-O issues. The No Drapery is very difficult to obtain in About Uncirculated condition and also very difficult to find in Mint State. It is a real sleeper in the series.

1840-O Drapery: This date is fairly obtainable in Circulated grades up to XF. However, in AU it is a very rare coin. In Mint State, it is next to impossible to find. I believe that it is much rarer in AU or better than any issue in the series.

1842-O: This date is scarce in XF and even more so in AU. In the last five years, because of new information, these have become only scarce. They are no longer believed to be rare, as they were once considered.

1844-O: This date is a rare coin. It is especially rare in XF or better condition. Along with its rarity, collectors have difficulties finding a **problem-free** example because this year contains many problem pieces. That is why a problem-free specimen is a prize for any collection in higher grades. This date is very rare in Mint State condition.

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

1846: This is the key to the Liberty Seated Half Dime series. The number of pieces available for Good thru Mint State is less than others, including the low mintage of the 1863-1867 Philadelphia Mint issues. If this were a Half Dollar or Dollar rarity, it would be worth five to ten times more. At current levels, it is a real bargain in the Half Dime series, especially so in XF or better. It is extremely rare in Mint State condition.

1849-O: This date is very overrated in Good thru XF condition. However, in AU and Mint State it is much more scarce.

1850-O: This New Orleans issue is not as common as the price indicates. It is very scarce in AU and Mint State.

1852-O: Here is another New Orleans rarity. It is a scarce issue, but in AU or Mint State, it's a nice prize for any collection.

1853 No Arrows: The No Arrows date is a scarce coin, yet obtainable. I believe the best value is in the AU grade.

1853-O No Arrows: Here is another date that is rare and plagued with problems. This date is usually found very weakly struck in the date, which often leads collectors to believe that the Arrows have been removed, but the weakness in the date is typical for this date, mint mark & variety. A nice VF, XF or AU would be a prize in anyone's collection. It is very rare in Mint State.

1855-O: This New Orleans date is the scarcest issue in the Arrows series in Uncirculated condition.

1858 Double Date: This date is certainly scarce, but not rare. However, the scarcest grades in which to locate an example are AU and Mint State.

1858/Inverted Date: This variety is scarce, but not nearly as scarce as the Double Date. AU and BU are the most difficult grades.

1859 Transitional Pattern, Judd 232: This coin is extremely rare and desirable. It appears at public auction an average of approximately every 6-7 years. It is only available in Proof condition. If there are any more than 10-15 pieces, I would be very surprised. Again, it is extremely rare!

The 1859 Transitional Pattern differs from the business strike 1859 by the omission of the legend, *UNITED STATES OF AMERICA*, on the coin's reverse. Also, the wreath circling *HALF DIME* on the reverse was modified.

1860 Transitional Pattern, Judd 267: A few years ago, there were 10-20 pieces on the market at one time, but not any more. Today, you must look much harder to find one than at any other time I can remember. It is only available in Mint State, even though the old "Red Books" - *A Guide Book of United States Coins*, by R. S. Yeoman, listed them as a "Proof only"

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

series. It is an interesting coin that you can have both fun and pleasure in owning. The 1860 Transitional Pattern differs from the business strike 1860 by having 13 stars circle Miss Liberty on the obverse. Business strikes have the legend, *UNITED STATES OF AMERICA*, circling Miss Liberty on the obverse. Again, the Transitional issues do not have the legend, *UNITED STATES OF AMERICA*, on the obverse or reverse.

1863: This is the first of several scarce Philadelphia Mint dates of the series. It is a scarce issue, although it's the most common Philadelphia Mint in the 1863-67 era.

1864: Here is a rare coin that is much more obtainable in higher grades than in the lower Circulated grades Good-VF. Several years ago it was listed as a Proof only issue. However, the professional grading services have reported many business strikes in their published population reports.

1865: This is another rare coin struck at the Philadelphia Mint. I believe it to be rarer than the 1864 in lower Circulated grades from Good thru XF. It is rarer in Mint State than in Proof.

1866: The 1866 is a rare coin in Circulated grades. It would be good company with the 1864 and 1865 because of its similar rarity.

1867: The 1867 holds the distinction of having the lowest original mintage of the entire Half Dime series, not counting the 1870-S. In Good thru AU, this date is the rarest of the 1863-67 issues. However, because of its high prices in Circulated grades, I believe the value lies in Mint State, as it does with the other 1863-66 pieces.

1868: This is a scarce date in Circulated grades, but much scarcer in Mint State than the 1863-67 Philadelphia Mint issues.

ROBERT L. HUGHES HAS JOINED THE SUPERIOR TEAM!

Robert L. Hughes
(formerly with Heritage
Rare Coin Galleries)
joins Superior's staff as
Senior Numismatist

With a long tradition of first class United States, World and Ancient Coin auctions, Superior is reaching out to better serve its clients. The addition of Robert Hughes is just the beginning of many exciting changes taking place at Superior. A professional numismatist for 40 years, Bob brings to Superior world class numismatic knowledge and a fresh outlook for servicing the needs of the collector and dealer alike. Superior would like to invite the entire numismatic community to contact Bob and let him and his staff help you with your numismatic needs.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

The **PCI** Capsule...

✓ **\$8⁰⁰ PER COIN**

✓ **6-DAY SERVICE**

*Tells why more people
are turning to* **PCI**

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at **PCI** have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CELEBRATING OUR 30TH YEAR IN THE BUSINESS

WE APPRECIATE THE OPPORTUNITY TO SERVE YOUR NEEDS.

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

AMERICAN NUMISMATIC ASSOCIATION

MEMBERSHIP
APPLICATION FORM

☐ **YES**, I want to be a part of "America's Coin Club" and personally support the ANA's efforts to advance the "King of Hobbies." I understand that I will receive the Association's award winning magazine, The Numismatist; access to the 40,000 titles in the ANA Library; and dozens of other exclusive member benefits.

- ☐ Enclosed is \$35 for first year membership.
Extend your membership and SAVE.
- ☐ Enclosed is \$79 for three years.
- ☐ Enclosed is \$130 for five years.

Make check payable and return application to:

ANA • 818 N. Cascade Ave.
Colorado Springs, CO • 80903
1-800-367-9723 • Fax 719-634-4085

RECENT UNCIRCULATED MODERN COMMEMORATIVES OFFER GOOD INVESTMENT VALUE

by David Goldsmith

Commemorative coins have long been a means of creating a record of and honoring the memory of special people and events throughout the world. The United States is no exception. Millions of commemoratives have been authorized by Congress, then produced and sold by the U.S. Mint to commemorate special events, remember milestones in our history, and help fund special events or monuments. They were issued from 1892 to 1954, and again from 1982 to date. Even though not intended for circulation, Commemorative coins carry a legal tender status. They are the same dimensions and composed of the same precious as well as non-precious metal fineness as normally produced coinage. The surcharge, or the premium charged above the coin's actual production costs, goes to help fund these projects and events.

Beginning in 1982, and continuing through the present, close to 50 million Commemorative coins have been produced and sold to eager coin collectors, both in Uncirculated and Proof conditions. Commemorative coins, with their unusual designs and portraits, had sparked a new interest in coin collecting again. Other than the 1976 Bicentennial coinage and the 1964 Kennedy Half, there had been little change in circulating coinage since the last of the Half Dollar Commemoratives of the 50's.

Beginning with the 1982 George Washington Halves, and continuing with the 1984 Olympics, 1986 Statue of Liberty, 1987 Constitution, and 1988 Olympic issues, huge quantities were produced and sold. In more recent years, the sheer number of different issues of coins that The Mint produces has diluted the demand for these coins. This has produced some surprisingly low-mintage issues. Uncirculated versions of these later coins have some of the lowest mintages of any coins of recent times!

1995/96 Atlanta Olympic Games

Comprising the largest issue of Modern Commems, the Atlanta Olympic Commemorative program produced 32 coins, 16 of each in Uncirculated and Proof conditions. Included were four Half Dollars, commemorating baseball, basketball, soccer, and swimming. A number of the baseball and basketball Half Dollars were sold at The Olympics in special blister-type holders with an official Olympic pin. This resulted in higher mintages for these two issues, although most were well distributed.

The first of the eight Olympic Silver Dollars consisted of the Gymnast (I still think one of the pictured gymnasts was modeled after a young Jimmy Carter). The Uncirculated version was sold in special packaging at the Olympics, hence its slightly higher mintage. The Blind Runner is a dramatic issue, illustrating a blind Olympic runner with his sighted assistant running alongside. The 1995 issues round out with the Track and Field and Cycling. The 1996 dated Dollars include another Paralympics coin, the Wheelchair athlete. It features a dramatic portrait

of a Special Olympian competing in a wheelchair! Tennis was the second coin of the year, followed by Rowing and High Jump Dollars. These were not great sellers in their Uncirculated versions, thus creating the lowest mintage series of Silver Dollar Commems produced by The Mint.

The four \$5 Gold pieces consist of The Torch Runner, illustrating one of the many runners who carried the lighted torch throughout the country. The Olympic Stadium, The Flag Bearer, and The Cauldron round out this series. Again, the Proof versions sold well, but the Uncirculated issues did not, resulting in small mintages. They are scarce and increasingly difficult to locate. Many were included in the massive 32-piece sets sold by The Mint, housed in large, impressive cherry wood cases.

1996-1998 Issues

1996 had two different issues. First was the 150th anniversary of The Smithsonian Institution. A Silver Dollar and a \$5 Gold piece were issued to commemorate the anniversary, both in Uncirculated and Proof. The other 1996 issue recognized National Community Service, only issued as a Silver Dollar. Both series resulted in low sales for the Uncirculated versions, and are becoming increasingly difficult to find.

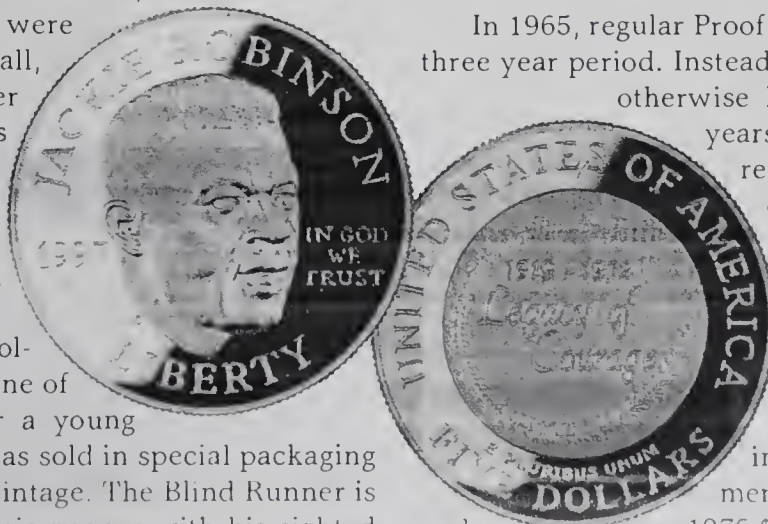

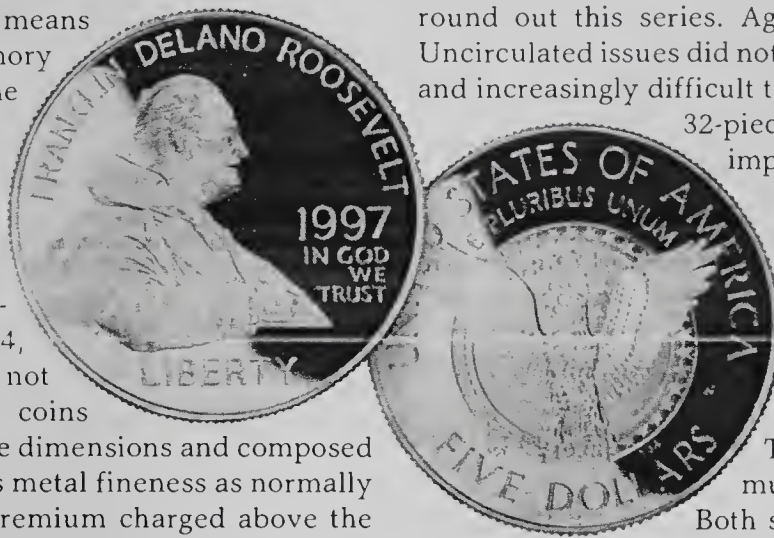

1997 saw four Commemorative programs, including the Jackie Robinson Silver Dollar and \$5 Gold piece. They commemorate the 50th anniversary of Robinson's Rookie of the Year award. After a long sales period, disappointing sales resulted in the lowest mintage Modern Commemorative coin made, the Robinson \$5 Gold in Uncirculated, with a mere 5,174 pieces sold! The other 1997 issues included the 175th anniversary of the U.S. Botanic Garden, a Silver Dollar. Many of the Uncirculated versions of this coin were made a part of the Botanic Gardens Coin and Currency set, discussed later in this article. The 1997 Law Enforcement Commemorative Silver Dollar remembers the dedication of slain officers of the law. The last 1997 coin was for "FDR" or Franklin Delano Roosevelt, a \$5 Gold piece issued in Uncirculated and Proof. It was a short-lived issue, with low mintages.

1998 only saw a couple of Silver Dollars produced, including the Robert F. Kennedy Commemorative Silver Dollar, in both Uncirculated and Proof. Many of the Uncs were included in the Kennedy Collector set, to be discussed later. The other Silver Dollar was The Black Patriots Commemorative, in Proof and Uncirculated. Both were small mintages, especially the Uncirculated issues.

Special Mint Sets

In 1965, regular Proof and Mint Set production was suspended for a three year period. Instead of Proof and Mint Sets, a "Special Mint Set," otherwise known as an "SMS," was produced for the years 1965, 66, and 67. It consisted of the five regular issue coins, Cent through Half, in kind of a Prooflike Uncirculated condition; not a double struck Proof, but better than a normal Uncirculated strike. Over six million SMS sets were produced during those three years.

There have been three SMS sets issued since then. The first came in 1993, the 250th anniversary of Thomas Jefferson's birth. It included an Uncirculated 1993 Jefferson Commemorative Silver Dollar, a 1994 Jefferson Nickel and a 1976 \$2 bill, with Jefferson's portrait. The Prooflike was specially produced, using specially prepared planchets and dies. It has a sandblasted or Matte finish, similar to the production method of

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

certain early 20th century Matte Proof ("Roman Finish") Gold coins. It is considered a "specimen" or "SMS" by the grading services that encapsulate them, but it is of this author's opinion that this coin should be considered a Proof. It has high, squared-off rims, and was like a Proof. Because of an order forms, no limit on the number of sets per customer was enforced, and the mintage was 167,703 sets. Most have been well-distributed in the collecting community. They now trade in the \$75 range.

By 1997, the Mint announced another Coin and Currency Set, commemorating the United States Botanic Gardens' 175th anniversary. Besides the Uncirculated Silver Dollar, it also included a 1997 Jefferson Prooflike in Matte finish, similar to the 1994 issue. The Mint limited orders to five, and the total mintage to 25,000, making the Prooflike the lowest mintage of the Jefferson series. They sold out quickly at \$39 per, and sales in the initial secondary market were recorded in the \$500 range. The law of supply and demand brought the price down to the \$135 area, where it now resides.

The most recent Special Mint Set is the 1998 Kennedy Collector's Set. It contains the 1998-S Robert F. Kennedy Silver Dollar in Uncirculated condition, and a 1998-S Kennedy Half Dollar, the latter being struck with the specimen or Matte finish. A unique and attractive coin and flawlessly produced, many have been encapsulated as a "perfect" MS70 by PCGS! At \$59 and no ordering limit, there were 67,000 sets sold. Initially going for \$400 in the secondary market, they are now trading at about \$125.

The Future of Modern Commemoratives

Several years ago, to purchase all of the Mint's current yearly offerings would set you back several thousand dollars! Legislation to reform the Mint's Commemorative coin program has finally gone into effect, limiting the number of programs to two per year. Also, all costs involved in the production of these coins must be paid before any funds go to the project commemorated. After considerable lobbying by various coin collecting organizations, Congress authorized a ten-year program to produce Circulating Commemorative Quarters, with each state of the union represented. Five Quarters will be issued each year, one for each state, in the order that they were brought into The Union. Of course, Proof versions are being produced by the Mint, to be sold at considerably above their face value! Only time will tell if these reduced number of issues will return Commemorative production to a stable level.

A Superior Guarantee.

When you're ready to sell, you want to be sure you get the most return on your investment. And you want as little risk as possible. Most of all, you want to know that what you're doing is the right thing. Any coin company can make promises, but everyone knows that promises can be broken. You want assurances.

Introducing Superior Stamp & Coin's **MARKET PRICE GUARANTEE™**. When you consign your coins to a Superior auction, we will examine your coins and place a competitive **Market Price Guarantee™** on your collection. **No matter what happens at auction, you will be paid at least the Market Price Guarantee™ we give you.** No questions asked. No matter what.

All you have to do is consign with Superior. Then just sit back, relax and let our experts at Superior tailor a custom program that makes sense to you and fits your unique needs. You can rest easy knowing that Superior's competitive **Market Price Guarantee™** gives you the assurances you want while providing the potential of **realizing higher prices** beyond the guaranteed price we quote.

For three decades, Superior has met the challenge of auctioning some of the world's greatest coin treasures and gaining top prices for its consignors. With our **Market Price Guarantee™**, we feel confident that we can do the same for you.

Why wait any longer? **Take advantage of Superior's Market Price Guarantee™ today and you will be a winner.** We guarantee it.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

Liberty Seated Dimes What's Rare And Underrated?

By Jim O'Donnell

A collector looking for a real challenge, one that offers rarity and great diversity among its more than 50-year span, need look no further than the Seated Liberty Dime series. In my opinion, it is one of the most widely collected of the Seated Liberty series. The design proved to be attractive and popular. It was used on denominations from the Half Dime through the Dollar. There was even a 20-Cent piece issued for a brief period from 1875-1878.

Seated Liberty Dimes were struck at the Philadelphia, New Orleans, San Francisco and Carson City Mints. There is no mintmark for the Philadelphia struck coins. However, the other Mints have their mark on the reverse of the Dime within or below the Wreath. They all have a composition of 90 percent Silver and 10 percent Copper.

This Seated Liberty Dime series, struck from 1837-1891, contains many scarce issues and high-grade rarities. Since this series is very lengthy, it will take some time to complete. Consequently, collectors must exercise a great deal of patience in order to be successful. Type collectors enjoy the challenge of this series because of the No Stars, Drapery, No Drapery and Arrows varieties.

The following is a date-by-date analysis of the Seated Liberty Dime series based on my experience and knowledge.

1837 No Stars- both varieties, **Large** and **Small Date:** As clean as the fields are, all marks are clearly visible, and a next to mark-free piece is a very attractive coin.

1838-O: Much scarcer than the 1837, especially so in XF to Unc. This date, the first New Orleans Mint Dime, represents a very good value!

1839-O: Here is a date obtainable in grades up to XF, but to try and find a Choice AU or BU, you have to wait. This is another date that offers the buyer a good value.

1840 No Drapery!: A much tougher coin than the price indicates. Try to find this in AU or BU. You will have your work cut out for you. So far, this is the **best value** if you can find one.

1840 Drapery: Here is a variety that is scarce in grades up to XF, but then the going gets real tough in AU and BU. There are only approximately 5 or 6 Mint State examples known.

1842-O: This is another scarce issue in AU. In Brilliant Uncirculated condition, it is really a **very** scarce issue.

1843-O: Here's an "O-Mint" that usually comes with surface problems. It's obtainable up to XF, but the AU's are very rare and

will take much searching before you can find one. The Mint State example is unique and didn't come onto the market until the **Louis E. Eliasberg, Sr.**, collection was sold in New York in May, 1996. The coin was catalogued as an MS66.

1844: So far, this is the lowest mintage and was always available until the last couple of years. (I believe that these are being hoarded by a West Coast collector who has pushed the price of the issue to its all-time high.) Still, grade for grade, I'll take the 1846 every time. In my opinion, this is a very **overpriced** issue! **Beware!**

1845-O: Another "O-Mint" that isn't quite as rare as the 1843-O, but still gives it a run for the money. It is more obtainable in AU, but the first known Mint State example was also from the

Lois E. Eliasberg, Sr., collection, and would you believe it was catalogued as an MS67? **Wow!** Both Uncirculated examples, 1843-O and 1845-O, that sold in the 1996 Louis E. Eliasberg, Sr., collection auction were originally from the **John H. Clapp** collection.

1846: With a mintage of only 31,300, this has always been one of my favorites. It is obtainable up to VF, but in XF it's **rarer** than the price indicates. In AU, it's next to impossible, and BU's are extremely rare—only 2 or 3 exist!

1849-O: This is one of the more **overpriced** issues in this series, and always has been much easier to buy than sell. Don't be fooled by paying too much for this issue.

1850-O: Much tougher than the 1849-O, and an XF or better is a real bargain. This is one of the **real sleepers** in the series. An excellent value.

1851-O: A scarce coin, especially in AU or Unc.

1852-O: Also especially scarce in AU or Unc.

1853 No Arrows: A scarce, low mintage issue that is obtainable in any grade you want.

1853-O: Only slightly better up to XF, but in AU it gets tough and even more so in Mint State. This is the scarcest Arrows, 1853-55, issue.

1856-O: This New Orleans date becomes scarce in AU and in Mint State. Uncirculated specimens are an excellent value.

1856-S: The first year of the San Francisco Mint Dimes. You would think that because of this they would have been saved. **Wrong!** There are only a few Mint State pieces that are rarely encountered, but this one is an excellent value in G-BU. Now try to buy the best you can afford.

1858-S: Another rare S-Mint, especially so in AU or BU. Only 5 or 6 Mint State examples have been slabbed so far.

1859-S: The rarest of the "S-Mint Dimes." It is obtainable up to XF. Then, the coin is very rare in AU and unique in Mint State.

1860-O: A rare coin up to XF. Then they really get rare in AU and even more so in Mint State. Only 2 or 3 Uncirculated pieces exist.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin PUBLISHER Shane Downing
EDITOR Keith M. Zaner CIRCULATION & BETTY MORRIS
ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

1860-S: Scarce in grades up to XF, but gets very difficult to locate in AU. It is rare in Mint State.

1861-S: Another scarce issue that usually comes with **surface problems**. A nice XF or better, with nice surfaces, is a real catch. Rare in Mint State.

1862-S: A scarce issue that also comes with problems, but much rarer in Mint State than the 1861-S.

1863: The **first rare** Philadelphia Mint. This coin is less frequently available in Circulated grades than the lower mintage issues of 1864, 1865, 1866, and 1867. The rarest P-Mint, 1863-67, in Mint State.

1863-S: This coin is usually available up to XF. Trying to find a truly lustrous AU example is a very difficult task. Mint State pieces are very rarely available, even from top ranked collections.

1864: Rare in Circulated grades, but this issue appears in Circulated condition more often than the 1863, 1865, 1866 and 1867.

1865: Here's a real rare coin in Circulated grades, more so than the 1864 or 1866.

1865-S: This is a date that always comes with a very **flat head**, as well as the central details in the obverse leg. Trying to find a fully struck piece is like looking for a needle in a haystack. It is very rare in Mint State.

1866: Another scarce coin, but ranks only above the 1864 in frequency in the 1863-67 run.

1866-S: More available than the 1865-S, but still, a nice sharp XF, AU or BU is a coin that will take some time for you to find.

1867: Many think this is the toughest of the 1863-67 run, but I still prefer the 1863 in XF or AU. Still, a Fine specimen or better will cost you close to four figures.

1867-S: Here is a very **undervalued** date that rarely shows up in XF or better. Like the 1865-S, they are usually found very weakly struck. A well struck specimen of this date is well worth a premium.

1870-S: Scarce! Many years ago, this was considered to be much rarer. However, a hoard came into the market 20 years ago. Now, it is not as rare in Mint State as it used to be, but the Circulated grades are still difficult to find problem free.

1872-S: Scarce in Circulated grades XF-AU. Only a handful of Mint State examples exist.

1871-CC: A very rare coin, and one of the **toughest** of the series. These come along only few and far between. One of the **most underpriced** coins in the entire series. Keep your eyes open for any "CC" Mint 1871-74 Dimes, as they are one of the best values of the series. In my opinion, the price gap between 1871-CC, 1873-CC and 1874-CC is too great!

1872-CC: Rare, but the most common of the 1871-74 "CC's" up to XF. AU's are another story, and represent excellent value. It is unique in Mint State.

1873-CC Arrows: Another very rare date to obtain. Only once in a while a G-VF appears, but XF or AU's are next to impossible and are worth every penny. BU's are extremely rare.

1873-CC No Arrows: **Unique!** Only one piece is known to exist. It sold in 1950 for \$4,000. Just recently, it sold for \$632,500 at the 1999 Central States Convention in Milwaukee. Not only is it

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

the **King** of Seated Liberty Dimes, but the King of Dimes. It is as heralded as the 1849 \$20 Liberty Gold (housed in the Smithsonian Institution national collection in Washington, D.C.); the 1870-S \$3 Gold (a Circulated example that has the numerals 893 scratched into the reverse field); and, the 1870-S Seated Liberty Half Dime.

1874-CC Arrows: Very rare. Considered by most dealers and collectors as the **key** date of the series. Often comes **damaged** or with **rusted planchets**. As much as I respect the rarity of this piece, I think the 1871-CC and 1873-CC Arrows are better values at today's prices. Still **rare as hell!** Extremely rare in Mint State.

1875-CC Below Bow: A rare coin that is infrequently encountered, but it wouldn't surprise me to learn that the population of this date will be increasing over the next 5 or 6 years.

1878-CC: Scarce in all grades, but in G-AU, it is an excellent buy.

1879: Scarce with a mintage of only 14,000 Business Strikes. It's far more available in Mint State than in Circulated grades, where it becomes very tough!

1880: Scarce, but not as much as the 1879.

1881: Scarce, but in Mint State it is the rarest of the 1879-81 Dimes. Just as rare in Circulated grades as the 1879.

1884-S: AU's represent an excellent buy, and in Mint State it is much rarer than the lower mintage 1886-S.

1885-S: The rarest S-Mint in Circulated grades with a mintage of only 43,000. Circulated pieces are difficult, and up to VG, are often very weakly struck on the reverse. Rare in Mint State.

1886-S: With a mintage of only 206,000, you would think it would be worth more than it is, but it's available.

1889-S: Scarce in grades up to MS64, but in MS65 or better condition it's very rare and an excellent buy.

LIBERTY SEATED DIMES RARITY CHART

Thank You.

Superior Stamp & Coin wants to thank everyone for their support over the years. As we continue into the new millenium, we take this time to share our success with all our customers. **We couldn't have done it without you.**

Clip and save the Special Coupons below. These coupons are just our way of expressing how much we appreciate your trust and confidence in Superior. We hope you will enjoy using them as much as we have enjoyed serving you.

Coupons are good for September 19-21, 1999 and December 3,4,1999 Sales.

\$2500 CONSIGNMENT CERTIFICATE

The bearer of this coupon is entitled to auction one lot in Superior's upcoming September 1999 or December 1999 coin auctions with absolutely no seller's commission charge. Minimum value of lot must be \$2,500 or more. Subject to execution of Superior's standard auction contract by both parties. May be combined with other offers. **THIS OFFER EXPIRES ON 8-18-99 FOR THE SEPTEMBER AUCTION OR ON 9-15-99 FOR THE DECEMBER AUCTION.**

National Gold Exchange, Inc.

Brussels Zurich Tampa Paris

Tel. 813-969-4111 FAX 813-969-4003

Thinking Of Selling Your Rare Date U.S. Gold? Anyone Can Promise Top Dollar, But Can Everyone Deliver? Get All The Facts Before You Sell Your Coins At Auction Or To One Of Our Competitors.

Why National Gold Exchange:

- ◆ We Stock Over \$15 Million Of Raw & Certified Inventory
- ◆ Twelve Full-Time Professional Numismatists On Staff
- ◆ Leading Importers of U.S. & European Gold Coins
- ◆ We Are Aggressively Seeking New Customers
- ◆ Aggressive Financing & Terms
- ◆ Multi-Million Dollar Credit Facility
- ◆ Industry Leading Technology
- ◆ Two Way Market Maker

- Why Wait For Auctions & Market Risk
- Immediate Full Payment At Time Of Purchase
- Over \$160,000,000 Spent On Rare Coins In 1998
- Financial Stability With \$15,000,000 Credit Facility
- Trusted Since 1979
- No Price Adjustments For Poor Auction Results
- No Fees Or Auction Costs (Photos, Cataloging, Advertising Fees, Etc.)
- We Buy It All - From Inexpensive Coins To Classic Rarities
- Why Consign Your Coins To Dealers & Wait To Get Paid

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgud Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

Do You Have a Star In Your Clouds?

by Larry Hanks

If you had to make a guess as to what were the two or three most popular types of coinage during the early years of this country's coinage system, and which two or three were the least popular, what would you guess? The answers may surprise you. Among the least popular were the Silver Dollar, Ten Dollar Gold Piece (Eagle), and the Dime or Dime. The most popular coins were the Gold Half Eagle, because of its close relation in bullion value to most other circulating foreign Gold bullion coins of the day, the Half Dollar because of its size, and the Cent as the workhorse in daily commerce of the late eighteenth and early nineteenth centuries.

The Half Eagle was particularly well liked by the banking community because it provided convenient storage, transportation, and exchange among all types of trade. It was matched closely in size and weight to the British Sovereigns and Guineas, the French 24 Livres, Latin American 2 Escudos Gold coins, and numerous other countries' Gold coinage. In fact, by the early 1800's, bankers preferred foreign Gold coins (all foreign Gold coins were legal tender in the United States at this time) to the Ten Dollar Gold Eagle.

Conversely, the Silver Dollar, Dime, and Gold Eagle were not well received. In the case of the Eagle, it was not satisfactory for trade around the world. Its value was inconsistent with virtually every other trade unit of Gold that was commonly used in international commerce, and its high valuation made it impractical for everyday use in early America. Additionally, both the Gold Eagle and Silver Dollar were disliked because their size was unwieldy.

My article today touches briefly upon a specific area of this early period in numismatics that I feel provides an excellent opportunity for both the dealer and collector to reap substantial rewards in the future. This area of numismatics is literally a gold mine that is just now starting to be explored. It is also an area ripe with rarities to be picked up at conventions and coin stores at bargain levels. But you'll have to do your homework. It is an area with some competition. However, while knowledge in this field has been around for decades, there are only a handful of experts. You can become a contributing pioneer in this field, as it is ready to get quite interesting on a number of different levels.

The area of numismatics I'm talking about? Early American Gold coins (Bust Gold), by die variety. Every two or three years, through the natural order of things, a great collection or two of United States Large Cents or Bust Half Dollars are sold. In many cases, extraordinary prices are realized on any number of rare varieties in these series. Years ago, numismatic authors Sheldon, Newcomb, and Overton published detailed reference works using photographic plates or explicit written attributions to help us all readily identify the varieties. Over time, additional research by numismatists was able to pinpoint further great rarities that fell within the confines of these series. Those collectors and dealers who were able to best interpret the rarity of the variety data secured significant windfall profits.

In the area of Early American Bust Gold coins, much is already known about many major design varieties. Examples include the 1798 Small Eagle (discovered by Woodward, March, 1865) versus the Heraldic Eagle \$5 Gold, 1804 13 Stars Reverse versus 14 Stars Quarter Eagle Gold and 1828 and 1828/7 \$5 Gold. However, work in this area is far from complete. In 1966, Mr. Harry Bass discovered the now famous "**Star In Cloud**" or **14th Star** 1803 \$10 Gold. Especially important is the fact that some Early Bust Gold coins have been identified as significant (and rare) varieties, but virtually no premium is being assigned to them. This will change in the near future.

How much more valuable is a Wide Date, Stars with Cross Arrangement, Four Berries, 1798 Half Eagle versus the 1798 Close Date, Cross Arrangement Stars with Four Berries? Could you be lucky enough to discover the next 1797, 16 Star Obverse, Heraldic Eagle Reverse, \$5 Gold? It's worth \$150,000 or more today. It could happen. In the summer of 1995, a new specimen of a 1798 Small Eagle, Bust \$5 Gold was discovered in the South. This coin fetched well into six figures shortly after being found. Then there are multitudes of dated, Early Gold coins with varieties already attributed, that are known to be rare to extremely rare. However, there are virtually no pricing records available. This will translate into opportunity for those interested in learning this field.

Collecting and dealing in Early American Bust Gold coins have generally been popular for most of this century. Typically, more advanced collectors are involved, as a certain amount of knowledge and confidence are required to comfortably purchase coins that average several thousand dollars each. Historically, this field of numismatics has provided one of the most stable stores of value for the numismatist. Over longer periods of time, this area has seen some spectacular gains. In the early 1970's, I purchased a Gem 1812 \$5 Gold for \$1,100 at the Shaker

the COIN DEALER newsletter MONTHLY SUPPLEMENT

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin PUBLISHER Shane Downing
EDITOR Keith M. Zaner CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. **Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

Heights Coin Convention. This was 50% over the bid levels of that period. Later in the year, I brokered a Gem 1834 Classic \$5 Gold at \$700. These same two coins in the mid 1990's respectively sold for \$76,500 (PCGS MS65) via private treaty and \$83,500 (PCGS MS66) in public auction. A number of similar stories could be shared by other dealers and collectors who have been around for the past two decades.

As noted, collecting of Early American Gold coins (1795-1838) first began with the collecting of design types, then progressed to various dates. Subsequently, sharp-eyed collectors began to take notice of the major design and date varieties. As time advanced, prices were established on these types, dates, and major varieties.

With regard to varieties, new, specific, and subtle circumstances are now taking place which will cause an exponential increase in the interest level of surrounding Early American Gold. The two most immediate events that will contribute to this phenomenon are the impending sale of the Harry Bass collection of United States Gold coins being conducted by Bowers and Merena in October, 1999 and May, 2000, and the recent publication of Mr. Anthony

J. Taraszka's book on United States Early American Gold Eagle varieties (1795-1804). Tony's book will become the standard reference book on the Eagle series. As in Dr. Sheldon's and Mr. Overton's reference works, Mr. Taraszka has used detailed language and large photographic

plates to illustrate the Gold Eagle varieties. This should result in considerable attention becoming focused on this area of numismatics.

The Bass auction catalog should be acquired by all Gold coin specialists, since Harry built the greatest United States Gold coin collection of all time. His specialty was Early American Gold coins by variety. Because of the many varieties that will be sold, combined with Bowers and Merena's usual superb cataloguing and photography, this will be an invaluable benchmark source. Thus, with the publication of these two new reference works, we once again will see that when good information is made available to the general public, the particular field covered in the research will attract strong interest, creating new deal-

ers and collectors. With the coming of age of the Internet, greater access to varieties information will be at everyone's fingertips. This in turn creates strong valuation movements. Again, one has only to look at the price pattern movement on the Overton and Sheldon varieties after the publication of their books, or, more recently, Mr. Richard Snow's reference book on Indian Cent varieties. Additional, new reference books on Early Gold Quarter Eagles and Half Eagles should follow in the next few years.

Of course, with regard to prices, substantial upward valuation movements won't happen overnight, but it will happen once the great chase begins. After all, that is one of the greatest joys in coin dealing or collecting—the chase.

In closing, I feel that besides financial opportunity, there exists the numismatically fulfilling potential for anyone to become a pioneer and expert in Early American Gold Bust varieties. Great work has already been done by fellow pioneers Taraszka, Bass, Breen and Hilt. They have helped lay the cornerstone for us. For the astute who educate themselves, the rewards will be grand. You don't have to be wealthy to enter this field (although it won't hurt to be able to buy the best quality), as beautiful,

Circulated examples are the norm for these early American coins. The key will be knowledge, and for those with modest budgets, the discipline to pace oneself, while at the same time knowing when to stretch for pieces when a special opportunity arises.

Now for a tip: the 1797 \$10 Bust Gold, reverse of 1798, is quietly being sought by only about a half dozen variety collectors, but it should soon gain general recognition for its extreme rarity. The 1797 \$10 Bust Gold, with the standard 1797 reverse, is many times more common than the 1798 reverse type, yet when you can find one, most dealers do not recognize what they have. Look for prices to match rarity in the future. Good luck, and remember to do your homework. You'll need the book first!

EARLY GOLD A FEW SLEEPER VARIETY RARITIES

Date	Type	Variety
1834	\$2½ Classic	Small Head; Small Arrowheads
1836	\$2½ Classic	Portrait Head of 1834
1836	\$2½ Classic	Portrait Head of 1837
1798	\$5 Bust Right	13 Stars, Wide Date, Large 8
1799	\$5 Bust Right	Small 9's; Arc Star Pattern, Small Stars
1837	\$5 Classic	Small Date; No Berry — <i>Rare in high grade</i>
1799	\$10 Bust Right	Small Stars, Wide Date
1803	\$10 Bust Right	Large Reverse Stars; No 14th Star In Cloud

Talent Search

Superior Stamp & Coin, one of the largest and oldest numismatic firms in the U.S., is currently seeking talented individuals in the numismatic industry. Opportunities currently available include:

- **NUMISMATIC SALESPERSON**

Primary responsibilities: Assist Senior Numismatist with in-house and trade-show sales and marketing. Travel is required.

- **EXECUTIVE ASSISTANT**

Primary responsibilities: Assist Senior Numismatist with the processing of wholesale and retail coin sales. Good computer skills a must. Candidate should be organized, possess good communication skills and have the ability to handle multiple tasks simultaneously. Travel is required.

- **COMPUTER EXPERT**

Primary responsibilities: MIS and general network and computer office troubleshooting, as well as assist in the design and maintenance of company web-site. Proficient in HTML a must.

- **E-AUCTION SALESPERSON**

Primary responsibilities: Assist with wholesale and retail coin auctions on the internet. Answer all e-mail and phone calls regarding on-line coin auctions.

- **CATALOGUERS**

Primary responsibilities: Assist with trade ads and other cataloguing. Candidate should be detail-oriented, organized, and possess excellent written and verbal skills. Experience with data entry a plus.

EVEN IF YOUR SKILLS DO NOT EXACTLY MATCH THE POSITIONS DESCRIBED ABOVE, WE MAY STILL HAVE AN EXCITING EMPLOYMENT OPPORTUNITY FOR YOU!

CONTACT STEVE DEEDS

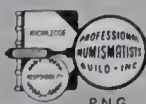

FOR A CONFIDENTIAL DISCUSSION, OR SEND YOUR RESUME TO THE ADDRESS LISTED BELOW. ALL INQUIRIES WILL BE KEPT STRICTLY CONFIDENTIAL.

Superior is an equal opportunity employer.
Substantial benefit package is available. Non-smokers only.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

All Modern Eagles and Sets must contain complete original U.S. Mint packaging.

IF YOU HAVE COINS TO SELL... WHETHER IT'S A \$2,000,000 1804 DOLLAR OR A \$30 COMMON DATE MORGAN DOLLAR

The only strategy that makes sense...is to call the *King of Cash* **before** you actually sell your coins.

Nobody spends more money buying U.S. coins from collectors and investors like yourself than Spectrum Numismatics! And the nice thing about Spectrum is we desperately need to buy **all** of your coins. That's why our name is Spectrum...we buy it all.

IT'S EASY TO DO BUSINESS WITH SPECTRUM

Spectrum Numismatics desperately needs your coins. Its coin-hungry clients have a huge appetite for Uncirculated pre-1950 U.S. coins. Spectrum has no choice. They must buy your coins or lose their clients. That's why 67% of all Spectrum purchases are from coin dealers. The professionals, the people in the know, the people who make their money buying and selling coins, sell them to Spectrum. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan/Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially COMPLETE COLLECTIONS!

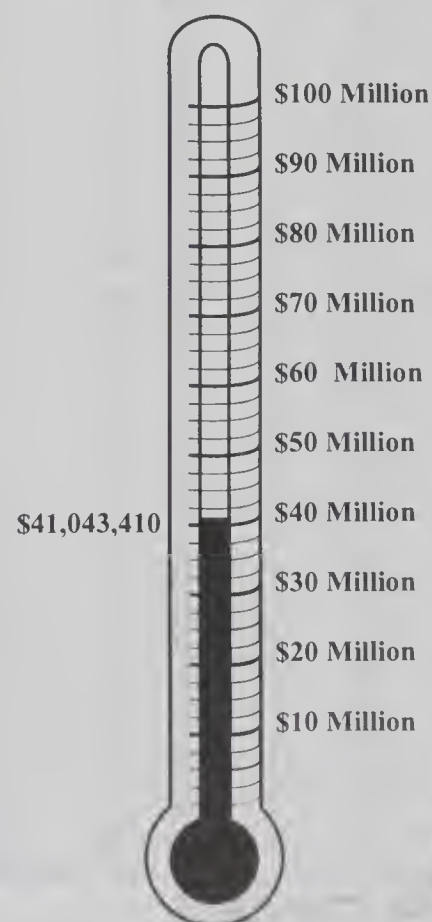

SPECTRUM IS DESPERATE FOR YOUR COINS

The best time to sell is when you have a willing buyer, and nobody is more willing than Spectrum to trade some cold hard cash for your coins. Our customers are screaming for coins. We estimate that we need to spend \$100,000,000 this year to satisfy the needs of our clients. Check out Spectrum's "*King of Cash meter*." So far this year, we've spent \$41,043,410. We need your help in order for us to be able to satisfy our clients and purchase the necessary \$100,000,000 worth of coins this year. If you have any Uncirculated pre-1950 U.S. coins for sale, there's only one strategy that makes sense. Before you sell any coins, call Spectrum. You can contact the Spectrum buyers any weekday between 8:00 a.m. and 5:00 p.m. California time. Just tell them you want to talk to the *King of Cash*.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at Long Beach, September 23rd thru 26th. Spectrum will be there for one reason and one reason only...to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have Uncirculated coins to sell and want to realize the highest possible price for your coins, then you should go to Tables 510 & 613 at Long Beach. Tell them you want to speak to the *King of Cash*.

The Virtues of Toned Coins

by Mark Salzberg

While grading is perhaps the most hotly debated topic in American numismatics, there is another issue that can lead to much discussion pro and con — toning on coins. It seems that every few years, someone writes an article or letter to the editor attempting to warn collectors away from toned coins. This is usually answered almost immediately by a number of responses in defense of naturally toned coins. Even so, the long-term effect of negative articles on toning has been to plant a seed of doubt in the minds of many coin dealers and collectors. There are some who refuse to buy toned coins or do so reluctantly, and I believe this is a misguided policy.

Any experienced coin collector or dealer knows that most metals used for coining have a natural tendency to acquire toning over time. This is a completely natural process that occurs as atoms at the coin's surface interact with their environment, forming new compounds. The resulting veil refracts light according to its variable thickness, producing one or more colors within the visible light spectrum. These may appear in a uniform pattern, coloring the entire coin evenly, or they may produce intermittent blushes of color. Perhaps the most desirable toning is that which appears in concentric circles of distinctive colors. These circles of color typically emanate from the coin's border and reach toward its center, with the latter area often remaining untuned or just lightly toned. While toning is not always so finely drawn, in many instances the beauty of such atmospheric action on a coin can be simply breathtaking.

The late Dr. William Sheldon, author of the book, *Penny Whimsy*, knew well the appeal of natural toning on his beloved early cents, and he captured its allure in words: "Old copper, like beauty, appears to possess a certain intrinsic quality or charm which for many people is irresistible . . . copper seems to possess an almost living warmth and a personality not encountered in any other metal. You see the rich shades of green, red, brown, yellow, and even deep ebony; together with blendings of these not elsewhere matched in nature save perhaps in autumn leaves."

While Sheldon was speaking only of copper coins, it's true also that silver, nickel, and to a lesser extent, gold may likewise acquire attractive coloration over time. Again, this is not universal, as some coins become blotchy or spotted, but there are plenty examples of superb toning in the marketplace. Such coins are eagerly sought by knowledgeable and experienced buyers.

Why then are so many collectors seemingly afraid of toned coins? There appears to be a predisposition in the United States

coin market toward favoring untuned or "white" coins over those possessing rich coloration, and it simply doesn't make any sense. It's only natural that old coins, particularly silver pieces, acquire various degrees and shades of color over time. This is one of the most charming qualities of antique coins that distinguish them from more recent issues, and I believe collectors who don't already appreciate the virtues of toned coins should learn to do so.

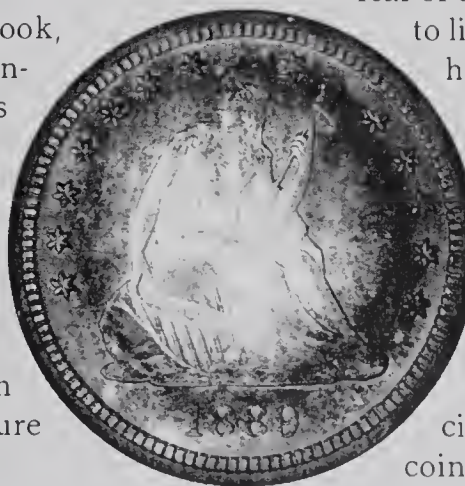

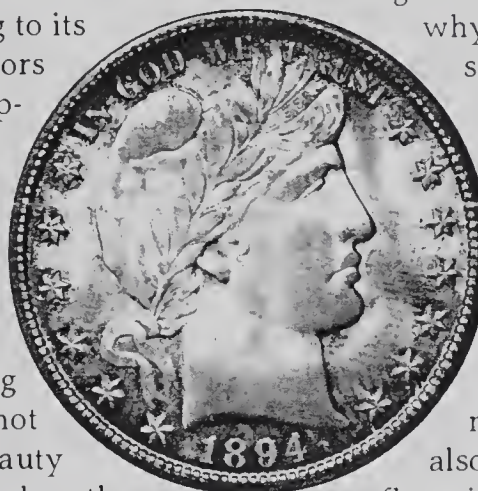

In other areas of collectibles, the value of natural toning, or patina, is widely understood. In fact, experts in antique furniture frequently extol the virtue of such original patina, and it often adds to the value of the object. Even collectors of toy trains or mechanical banks will agree that the original surfaces of a collectible item, no matter what its condition, are more desirable than any skilled attempt to replicate its appearance when new.

It's not surprising that persons new to collecting coins will consider a shiny example to be more appealing than one that appears aged. I suppose we all buffed our first coin acquisitions before placing them in our Whitman folders, but time and experience soon taught us that this is not the thing to do with coins. So then why do collectors still resist toned coins even when such pieces are so revered by experienced numismatists?

I believe the answer lies in the fact that some collectors and dealers perceive toning as a form of damage. Also, many are unable to distinguish original toning from so-called artificial toning, and that induces both suspicion and fear. Yes, people do create toning on otherwise white coins for a variety of reasons. Sometimes, it's simply to make the piece more natural looking, but there are also times when it's done to conceal harsh cleaning or flaws in the coin such as hairline scratches or repairs. The fear of unknowingly acquiring these deceptive pieces seems to lie behind the resistance many collectors and dealers have toward toned coins.

That's where certification makes the difference. While the originality of a coin's color can be subjective, the experts at the various grading services usually know the difference between a naturally toned, original coin and one that has been altered in any way. Believe me, when it comes to "doctored" coins, we've seen nearly everything, and that has only reinforced our appreciation of nice, original pieces. While encapsulated coins may not appeal to all collectors, no one is saying you can't buy such coins for the assurance they offer, and then simply remove them from their holders. It's certainly better than having to rely on limited experience to determine whether a particular piece has a shady past.

While a coin that has very dark or otherwise unattractive toning may actually be improved by a skillful chemical dipping to remove the unsightly tarnish, many pieces are harmed through improper dipping. This is especially true when the work is being

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter, (Greysheet) both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

performed by someone who lacks either the knowledge or the inclination to do it properly. Such carelessness can lead to a coin that acquires unattractive spotting or staining over time, because the chemical was not thoroughly rinsed away. In addition, many coins are over-dipped, resulting in a loss of luster. This leaves a coin that has a very flat, lifeless look to it. Certification services come down hard on such coins, reflecting a coin market that places little value on impaired pieces. In contrast, an attractively toned coin may actually grade a bit higher than it would have otherwise, since nice toning is viewed in the marketplace as an asset.

Some coin types are more likely than others to tone attractively. While there are always exceptions to every rule, coins having more centralized devices tend to tone more symmetrically, as do those having very simple designs. For example, modern coins such as Roosevelt Dimes and Washington Quarters typically will acquire very nice toning. More complex coins, particularly those in which the devices are less well centered, frequently tone in an irregular pattern. A good example of this is the Walking Liberty Half Dollar, which tends to acquire unbalanced toning. Also seldom seen with rich and symmetrical toning are Peace Dollars. Though millions were stored by the U. S. Treasury in the same environment as Morgan Dollars, only the latter are commonly seen with desirable toning. In fact, a beautifully toned Peace Dollar is such a rarity that I don't believe the market truly appreciates this quality, clearly favoring brilliant over toned coins.

With the prevalence of certified and encapsulated coins in the current market, one doesn't see many high-grade collections being placed within albums anymore, as was the custom just twenty or thirty years ago. Largely unknown to the current generation of collectors and dealers is the power these cardboard albums held to turn white coins into splendidly toned beauties. Particularly noted for this attribute were the sulfur-rich albums manufactured by Wayte Raymond and his successors. Known variously as the National Album or the American Album, this line produced some of the finest toning seen on vintage silver coins. Some people are still acquiring these obsolete albums for the sole purpose of toning coins, though the results are not always predictable, and you proceed at your own risk. In any case, such toning takes years to develop, but there are evidently some collectors willing to wait a decade or two to achieve the desired effect.

Certain coin types are notable for having particular forms of toning. For instance, many of the Commemorative Halves from the 1930s were mounted in cardboard holders and then placed within envelopes for delivery to their purchasers. These cardboard holders secured the coin by having a strip of paper projecting across the hole. The paper projection was cut so that it included a disc shape somewhat smaller than the coin. When left undisturbed for many years, the coins stored in such holders typically acquired a pattern of toning that mimicked the shape of this projection, or tab. For that reason, such coins are described as having "tab toning," and this feature is valued as an unmistak-

able sign of originality. Some of these holders were generic, being used for several different Commemorative coin issues, while others were manufactured for specific coins. In either case, the resulting patina adds a dimension of aesthetic and historic value lacking in a coin that is brilliant.

It is the feature of toning that often adds a distinctive quality to coins, permitting them to rise above their peers. After all, there are thousands of 1942 Walking Liberty Halves in fully white, Mint State condition, but how many are there with charming, original toning? Unfortunately, the population reports issued by certification services can't distinguish between toned and brilliant coins, with the sole exception of copper pieces. If it were possible to do this, I believe that many recent coins would prove to be quite scarce with nice toning. From my first-hand observation of thousands of coins monthly, I know this to be true.

Perhaps the most compelling reason to appreciate nice toning is this: Once removed, it may never reappear in the same manner. It takes many years for coins to tone naturally, though this process is accelerated in certain environments. The best toning occurs over a period of several decades, as witnessed by the superb coins seen in a number of prominent, old-time collections. For example, the Garrett Collection, assembled between the 1860s and 1942, was rich in splendidly toned copper and silver coins. The Eliasberg Collection, which included the former holdings of the Clapp Family, was a contemporary of the Garrett Collection, having been assembled between the 1880s and 1950. It too featured hundreds of stunningly toned coins, many of which were acquired directly from the U. S. Mints of manufacture when new. These were carefully set aside and never cleaned, permitting nature a free hand at providing them with gorgeous patinas.

It takes only a second or two to wipe away a lifetime of nature's splendid handiwork. The number of originally toned United States coins has dwindled over the past forty years, as a couple generations of collectors have been misled into believing that "brighter is always better." Unfortunately, no chemical or mechanical cleaning can ever make a coin look exactly as it did when new, and countless pieces have been irreparably harmed by unskilled attempts at cleaning.

At NGC, we recognize the appeal of both brilliant and toned coins, and each piece is evaluated on its merit, without prejudice for or against toning. But I believe that as values rise and the coin market becomes ever more sophisticated, originality will prove to be as important as luster in determining a coin's value. As with any endangered species, we have an obligation to preserve the natural character of such desirable pieces for future generations.

Superior Makes Selling Your Coins ... As Easy As 1-2-3!

When you're ready to sell your coin collection, you want a plan that you can understand. You want to know what to expect at auction. Most importantly, you want to know that what you're doing is what's best for you.

Superior is here to help. With three easy steps, you can see your coins go to auction and realize the kind of prices you've been dreaming about. Our friendly and knowledgeable staff are available to answer your questions and guide you through the auction process. No fancy sales talk. No hidden fees. All it takes is three simple steps:

1

CALL 1-800-421-0754.

Contact Mark Goldberg, Steve Deeds, or Robert L. Hughes to discuss your collection. Our staff will answer your questions and explain how simple it is to consign with Superior.

2

SCHEDULE A PICK-UP AT NO COST TO YOU.

We will travel at our own expense to receive collections* as soon as the next day. Or we can, at our own insurance expense, have you send the coins to us via FedEx or registered mail.

3

SIT BACK AND RELAX WHILE WE SELL YOUR COINS AT AUCTION.

Superior will show your coins in their "best light" by giving your collection maximum exposure before an auction takes place. Each of Superior's coin auctions is available for lot viewing online with free interactive email bidding through our web site, www.superiorSC.com. Dealers and collectors worldwide can view full color photographs and place competitive bids from their home or office. In-house lot viewing is also available. Plus, customers from our extensive mailing list receive our auction catalogues well in advance of our sales.

It really is easy with Superior! Call Today!

* collections valued at \$50,000 or more.

Superior – America's 24 Hour Coin Store™

EARLY AMERICAN COINAGE

1723 FARTH HIBERNIA PCGS MS65 PQ-SILVER An immaculate gem of this very scarce and seldom offered rarity. A very attractive high-end example with pretty shades of blue and olive toning. One of the finest known specimens! \$10,000

LINCOLN CENTS

1916 1C PCGS PF65 RD Beautiful lustrous surfaces typical of description by Breen as "having finer matte finish." Only 1,050 proofs minted. Must be seen to be fully appreciated. PCGS has certified just 4 others in this grade, and only one slightly higher. \$11,000

BUST HALF DIMES

1797 H10C NGC MS63 D Fifteen stars variety, a bit weakly struck eagle as usual. Steel gray toning. Tiny mintage of only 18,144. \$9500

BUST DIMES

1820 10C PCGS MS65 W Large O variety. Gem example with frosty white luster and immaculate surfaces. \$8900

SEATED DIMES

1838-O 10C NO STARS NGC MS65 L Deep gold and steel gray toned gem surfaces. Only year of this type. Breen indicates that these are "Usually in low grades, survivors are well worn, mint state specimens exceedingly rare." Neither NGC or PCGS has certified a better coin than this specimen. We suggest a telephone call to reserve this important numismatic rarity. \$14,500

1853 10C ARROWS PCGS MS67 W Superb gem. Satiny luster, with golden toning around peripheries. First year of short-lived (1853-55) variety with arrows around date. One of only 9 slabbed by PCGS in this high grade, and just 3 certified as slightly better. \$13,500

BARBER QUARTERS

1896-S 25C NGC MS64 AT This scarce date (mintage only 188,039) is "usually in low grades" (Breen). But this is an exceptional coin that is the exception to the rule. Borderline gem, with handsome iridescent gold, purple and blue toned obverse, isolated areas of gold and blue toning on reverse. \$8750

1913-S 25C PCGS MS64 W With only 40,000 made, this is the lowest mintage in the entire Barber Quarter series. Near-gem with bright white satiny luster. This rarity is probably a survivor of one or two rolls accumulated by fabled dealer Wayte Raymond and others during the 1930s. \$8500

EARLY HALVES

1830 50C NGC MS66 AT Attractive gold and steel gray toned gem, with satiny luster. Virtually pristine surfaces. \$10,500

SEATED HALVES

1873-CC 50C NO ARR PCGS MS64 W Blazing white frosty surfaces, with a few tiny areas of toning. Very well struck with attractive semi-matte surfaces in fields. First of just 2 years with arrows and motto. Mintage of only 214,560, "with a combined Mint State population of just 7 pieces, that "is almost certainly inflated by regrades, and the actual number of distinct specimens is more likely in the area of 4 or 5 pieces. The Pryor coin, later graded MS 63 by NGC, is the only comparable example to be sold at public auction in the last two decades" (from description of this coin in recent The Nevada Collection Auction). An important opportunity. \$48,500

WALKING LIBERTY HALVES

1919 50C PCGS MS67 W Magnificent example with blazing deep satin luster. Just a whisper of golden toning on otherwise pure white surfaces adds to the allure of this superb gem. Carries the Childs Collection pedigree. Low mintage of fewer than a million pieces. Breen indicates that this date was saved by very few hoarders, accounting for the low survival rate in exceptional quality. \$13,500

TRADE DOLLARS

1876-CC TS1 NGC MS64 AT Deep gold and steel gray toned near-gem example of this Carson City Trade Dollar, that's "Usually in low grades" (Breen). Pop Reports (PCGS and NGC) indicate total of 4 in this grade with just one better. A rare opportunity. \$31,500

1877-CC TS1 NGC MS64 T Lovely deep iridescent gold and lime patina covers surfaces. Well struck near-gem example of coin "usually in low grades" (Breen). \$12,000

\$1.00 GOLD

1854 GS1 TYPE 2 PCGS MS65 Exceptionally nice for this rare type. Sharply struck, virtually pristine surfaces with satiny luster. Breen indicates that "High-grade specimens (of Type 2 Gold Dollars) stimulate vigorous type-collector demand." PCGS Population Report reveals just 23 certified in this gem grade and only 7 slightly better. An important opportunity to fill in this difficult type in a gem gold type coin collection. \$51,500

1865 GS1 PCGS MS66 Breathtakingly beautiful with frosty devices and delicious original satiny luster. Virtually as struck example from "The Childs Collection" that must be seen to be fully appreciated. This is an original, described by Breen as "low date, almost level, rare." Mintage was incredibly small — only 25 pieces. An important opportunity. \$14,000

EARLY \$2.50 GOLD

1827 S2 1/2 PCGS MS62 Sharply struck with frosty mint luster. Original mintage nearly 1-3/4 centuries ago was only 2,800, so it's not surprising that Breen calls it "rare." This is the last year of the short-lived Capped Head type (1821-7), and would make a great addition to an early gold type collection. \$23,500

\$3.00 GOLD

1877 \$3 PCGS MS60 Childs Bright prooflike fields are lightly bagmarked. Rare Mint State survivor of the tiny mintage of 1,468 business strikes. Breen indicates "Usually EF to AU." Holder carries the pedigree from "The Childs Collection." \$14,000

EARLY \$10.00 GOLD

1803 \$10 NGC AU58 Well struck, handsome example of this classic early Eagle. Type with small stars above eagle (Breen #6844), has minuscule mintage of just 8,979. \$8750

\$20.00 LIBERTY GOLD

1896 \$20 NGC PR66 Cameo Wow! Here's a magnificent cameo gold Double Eagle that will excite the most jaded collector. Deeply frosted devices contrast with the dazzling luster of the mirrorlike fields. Of the tiny mintage of just 128 proofs, Breen writes "Possibly 20-25 survive, some impaired." This is one of only 5 Cameo Proofs certified by NGC, and there is none better. A call to (800) 421-0754 is strongly recommended to acquire this important rarity. From the Pittman Sale, where it realized over \$125,000. \$81,000

\$20.00 SAINT-GAUDENS

1911-S \$20 NGC MS66 Superb example, with bright satiny luster, of one of the world's most beautiful coins, created by America's greatest living sculptor — Augustus Saint-Gaudens. Sadly, he died in the same year (1907) that his numismatic masterpiece first appeared. Mintage of 1911-S Double Eagles was just 775,750, and few have survived in the exceptional quality of this specimen. In fact no examples have been graded better by either of the two leading grading services (PCGS and NGC). \$10,500

1927 \$20 PCGS MS67 A truly superb example of this type, with breathtakingly beautiful satiny luster. Will please the perfectionist! PCGS has assigned this stratospheric grade to just 4 coins — and none better. NGC has slabbed only 2 in this premium quality and none better. An important opportunity. \$11,250

1929 \$20 PCGS MS65 Magnificent blazing satiny luster. An important opportunity to acquire a true gem example of a rare Double Eagle with an estimated "60 survivors," according to Breen. Breen goes on to explain that "relative rarity of the later dates (such as this coin) owes less to limited mintages than to extensive meltages and random survival of specimens in French and Swiss banks during the decades after the Great Recall of 1933-34." PCGS has slabbed only a dozen other examples of this date and grade, and just one slightly higher. We suggest a call to (800) 421-0754 to reserve this exceptional 20th century rarity. \$39,500

1930-S \$20 PCGS MS66 Spectacular example of an important 20th century gold rarity, with blazing frosty luster. Out of the tiny mintage of only 74,000, Breen estimates that "possibly 25 survive." The total indicated in both NGC and PCGS Population Reports is 41 in all grades, but this likely includes resubmissions. NGC hasn't slabbed any 1930-S in this or a higher quality, while PCGS indicates a population of 2 in MS 66 with none higher. This is an important opportunity that probably won't repeat in the near future. \$95,000

TERRITORIAL GOLD

ASSAY \$20 900 NGC MS62 Frosty luster, well struck example of this famous Territorial Gold issue from the United States Provisional Mint at San Francisco. Choice example with far fewer than usual minor contact marks. \$10,500

WASS MOL \$10 1855 PCGS XF40 A bit on the dull side visually, but overall rather decent example of this Territorial Gold coin described by Breen as "extremely rare." This is especially true in high grades, such as this museum-quality specimen. \$20,000

U.S. PATTERNS

1871 SS1 J-1137 PCGS PF65 R8 Aluminum, reeded edge, R-8 (only 2-3 known). Longacre's lovely seated Indian Princess design. Superb snow white cameo beauty. Gorgeous! \$15,000

1872 T41 J-1219 PCGS PR66 BT P-1360, silver, reeded edge, R-6. Superb eye-appealing skyblue pink patina. The Liberty Seated obverse is identical to the regular issue Silver Dollar for this year, plus the "Commercial" Dollar reverse. This is finest of just 3 certified by PCGS (none certified by NGC). According to Pollock, "Pattern Commercial Dollars and Trade Dollars were produced in 1872 in response to the continued belief in Congress that the production of a silver coin equal in value to the Mexican peso would facilitate trade with the Orient." \$16,500

1873 TS1 J-1281 NGC PF67 BT P-1423, silver, reeded edge, R-4. Heavenly cameo gem, close to perfection. Mouth-watering iridescent deep blue, purple and gold obverse, peacock blue and gold reverse. Portrait of Ms. Liberty is attributed to J. A. Bailey; small eagle is on reverse. The highest grade assigned by either PCGS and NGC, far superior to the Garrett piece NGC (MS-64). \$15,000

1873 TS1 J-1300 PCGS PF64 AT P-1442, silver, reeded edge, R-7 to 8. Seated Liberty with plow handles and wheat sheaves behind globe. Bright fields are covered with beautiful gold, sea-green and magenta toning. Unique in this quality, with just two others purported to be better, out of an estimated 4 examples extant. \$12,000

1874 S3 J-1370 NGC PF64 R8 P-1515, aluminum, reeded edge, R-8. Struck from regular dies for Three Dollar Gold pieces. Stunning white cameo beauty. Population Reports (NGC and PCGS) indicate that a minuscule 3 examples are in this near-gem quality, with none better. This is as good as it gets! \$10,000

1877 50C J-1512 NGC PF66 W P-1676, silver, reeded edge, R-6 to 7. Dazzling white cameo beauty that is close to perfection. Superb design with miniature Morgan Dollar obverse and standing defiant eagle reverse. This is finest of just 2 certified by NGC, and PCGS has slabbed just one of these, in the same grade as this coin. A true rarity, a classic design, and superb quality! Pollack indicates that the defiant eagle "design seems to have been inspired by a drawing by Titian Peale prepared circa 1838." \$31,500

1877 50C J-1524 NGC PF64 L P-1690, silver, reeded edge, R-6 to 7. Blazing luster with whisper of pale iced tea toning at edges. This is finest, by far, of the 3 slabbed by NGC, and the single example of this pattern certified by PCGS is also inferior. It is estimated that only about a dozen examples of this pattern are extant. The initial "B" of designer William Barber is in field below Liberty's neck. \$18,000

1879 S4 J-1636 PCGS PR66 BN Eliasberg P-1834, copper, reeded edge, R-6 to 7. The extremely popular Four Dollar Stella in base metal. Reddish-brown devices with iridescent blue, lime and magenta patina in fields. An important opportunity to acquire the single highest graded example by PCGS, just one other in same grade slabbed by NGC. Plus you get the Eliasberg pedigree. None is better! \$35,000

1877 SS1 J-1542 NGC PF65 RB P-1715, copper, reeded edge, R-7. Another of the many proposed, but rejected, designs for the new "Morgan" Silver Dollars introduced the following year. Glossy chocolate brown gem with lots of mint-red and a dash of magenta. Total population (PCGS and NGC) in this quality is just 3 with only 1 better. Handsome example of an important rarity. \$13,500

1879 10C J-1585 PCGS PF66 RB P-1778, copper, reeded edge, R-6. The famous (and beautiful) "Washlady" design by Charles Barber. Magnificent purple, blue and magenta patina overlaid on blazing mint red fields. The finest quality available of this important pattern. Only two others are its equal (according to NGC and PCGS Pop Reports), and none is better. P.O.R.

1879 50C J-1598 PCGS PF66 RB P-1792, copper, reeded edge, R-6. Famous "Washlady" design, nicknamed thus in 1891 because of Ms. Liberty's hair style. Iridescent gold and magenta around devices, contrast with blue and purple fields on this superb gem. The one and only example certified by PCGS in this grade, with none better. P.O.R.

1879 SS1 J-1604 PCGS PF65 RB, PQ P-1799, Copper, reeded edge, R-7. Superb blazing surfaces on this PQ gem, with pale violet patina in obverse fields. This magnificent example of the famous "Washlady" Dollar would be the star of any pattern or Silver Dollar collection. Population Reports (PCGS and NGC) indicate total of 4 in this grade and just 2 better, out of an estimated 4-12 extant. P.O.R.

1993 W World War II	103 00	115 00	101 00	110 00	GREYSHEET GRADING STANDARDS				
1994 W World Cup	105 00	120 00	104 00	115 00	Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.				
1995 W Civil War BU 1995 W Proof					MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.				
1995 W Olympic Torch Runner BU 1995 W Proof	220 00	250 00	135 00	145 00	MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.				
1995 W Olympic Stadium BU 1995 W Proof	150 00	165 00	120 00	130 00	MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.				
1996 W Flag Bearer BU 1996 W Proof	215 00	235 00	130 00	140 00	MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.				
1996 W Cauldron BU 1996 W Proof	220 00	240 00	190 00	210 00	MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Arngud Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke

From The GREEN MONSTER To The INTERNET: The History Of Electronic Coin Trading

By David Goldsmith

The Internet has changed the way we do business. In a matter of minutes, a coin can be listed for sale and be visible to millions of potential customers. With a click of the mouse and a credit card payment over a secure network, the sale of that coin can be consummated almost instantly! Until recently, this took a large investment in a web site, expensive programming, as well as extensive advertising. Even with all this, months or even years might be required to produce results that would justify this terrific expense.

Five years ago, a number of enterprising individuals revolutionized Internet trading by building web sites that, for a fee, could be used by us less computer-literate coin dealers. For a small percentage of the prices realized, a small coin dealer could run an 80-coin auction with an exposure to many thousands of qualified coin buyers, with excellent results. It grew from just a few auctions to dozens of auctions running live at any given moment.

A major player in the Internet auction field is eBay, founded in 1995 by Pierre Omidyar, who started the site after his wife's obsession with collecting Pez Dispensers made him realize the collectors' need for a place to market their goods to one another. It quickly grew to become the second largest Internet site in the world, now with nearly 6 million members. On eBay, a registered member can place an item up for auction for a small listing fee, and, if it sells, pay a very small commission. Then the seller contacts the winning bidder via email, payment is sent directly to the seller, and the item sent to the bidder. There are over 3 million items up for auction, in over 2,500 categories. Coins and stamps comprise over 100,000 lots, collectibles over one million! Bidders use a search feature to find the items they are looking for.

Long before the Internet was widely available to the public, in the 1960's and 70's, a number of coin dealers were connected by a system of teletype machines. These were rebuilt or surplus Western Union machines, similar to the ones used by the news reporting services of the time, e.g., Reuters and UPI. They were nicknamed "green monsters" because of their behemoth size, weight and color. When connected together, via dedicated phone lines, every time one machine was activated by typing a message, all the connected machines also typed the same message. This worked very well, except when two or more dealers tried to type at the same time, producing a garbled message. Each member had his own station name, and transactions were consummated between parties, albeit not totally privately, as even private messages were visible to all members.

The National Numismatic Network, commonly known as "NNN," was a popular and well-used system. It was policed by Paula, an NNN employee. I can't remember her last name, but she referred to herself as M.G., or "Mother God," because of the power she wielded to keep the system orderly! The competing service, FACTS, used similar equipment. They were connected by a series of circuits linking the various parts of the country together. Automatic machines were then made available. They consisted of an auxiliary tape puncher and reader. You could type a message, and it would be recorded by embossing a long paper tape, and then running it through its reader, sending out the message in its entirety very quickly, much faster than manual typing.

The two systems were commonly referred to then (and by some of us old-time dealers even today) as the "teletype" or "tape," because of these common components. Eventually, computers took over the functions of these ancient systems, and, in 1982, Coin Net was started by Bob and Sam Sloat of Westport,

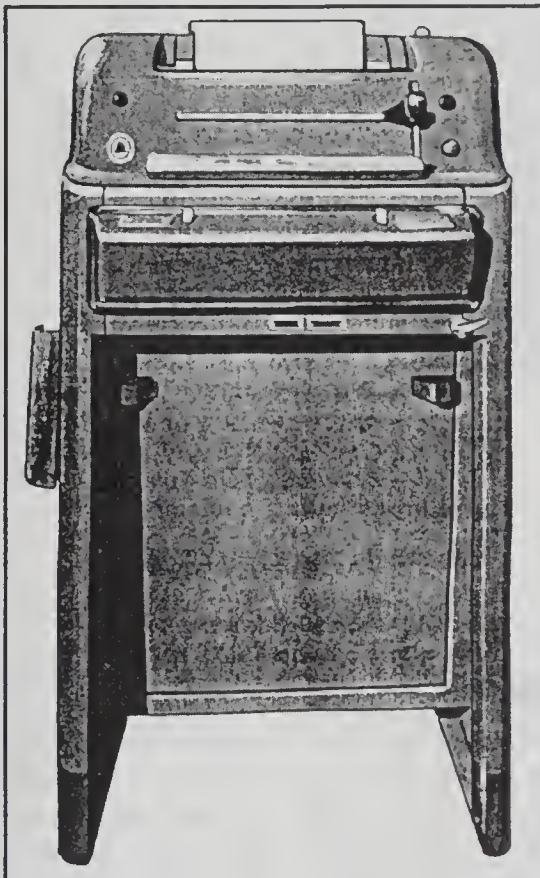

Connecticut. It was the first system to use personal computers to link to a central computer core. Once buy and sell messages were entered into the central computer, via modems, from subscribing members, they were available for viewing through those same computers. Today, the system has been expanded to many other areas, such as Beanie Babies, watches, jewelry, sports cards, etc., and has thousands of members.

The FACTS system, now owned by The American Teleprocessing Corporation, or "ATC," uses the Internet to store and distribute buy and sell messages. A registered member can enter the site, and read or enter messages. It also stores a database of the current buy and sell prices of the most commonly traded certified coins. Originally known as "ANE," the American Numismatic Exchange, it is now known as the Certified Coin Exchange, or "CCE." (Coin Net has a similar system, CCN or "Certified Coin Network.") Dealers place buy and sell prices in the database. When a selling

dealer finds a Bid he likes, he "hits" the Bid, and the sale takes place.

There are two types of Bids, sight-unseen, and sight-seen. If a sight-unseen Bid is hit, the sale is final, and there is no return privilege. Many of the Bids reported in *the Certified Coin Dealer Newsletter*, or "**Bluesheet**," are a record of such transactions. On a "sight-seen" transaction, the buyer has a period of time (usually 24 hours) to examine the coin, and return it if it doesn't meet his or her requirements. Some of the Bids in *the Coin Dealer Newsletter*, or "**Greysheet**," *the CDN Monthly Supplement*, and *the CDN Quarterly*, are based on these sight-seen dealer offers. Sight-seen Bids are usually somewhat (or sometimes considerably) higher than sight-unseen Bids.

With the advent of third-party coin grading and encapsulation in 1986, the sight-unseen trading it produced was supposed to revolutionize the coin industry. Here is a quote from the optimistic August 1986 *Monthly Summary* article by Bruce Amspacher

EXECUTIVE DIRECTOR Pauline Miladin
EDITOR Keith M. Zaner

PUBLISHER Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

titled "The 1996 ANA": "...here is my report on the 1996 ANA Convention that was just completed in Wausau, Wisconsin. Of course, just as was true with the 1995 show, there were no actual coins there. Once again, 750 dealers set up their computer terminals and traded their already pre-packaged, guaranteed grade coins with delivery to be made after the show..." There were high hopes, and for a while, sight-unseen trading, via the ANE and CCE systems, was very successful in promoting coin investing to the non-coin-collecting public through investment portfolios and funds, peaking in 1989. Because of the subjective nature of coin grading, as well as the collapse of manipulated coin prices, the lofty goals of absolute sight-unseen coin certificate trading has not become a reality. It seems there are still many collector/investors who want to see and hold their rare coin acquisitions.

The Internet, combined with the use of scanners and digital cameras, gives the potential buyer a look at the coin he or she is considering buying. Perhaps a new term will be introduced into coin collecting as a result: Now, with the use of computer monitors to view coins for sale on the Internet, we can add "screen-seen" to the numismatic lexicon. The purchase of certified coins offers protection against counterfeited, altered, or overgraded coins that have plagued the hobby for years.

The Electronic Coin and Collectible Fair

October 8-10th marked the first Electronic Coin and Collectibles Fair. It was held at the Columbus Convention Center, in Columbus, Ohio, in a 150,000 square foot exhibition hall. It featured 400 tables of coins, collectibles, antiques, and auction companies. eBay also set up a live, on-line auction, utilizing a giant screen to display the current lot. Collectors could place Bids right from the floor of the show. There were two large, live auctions of coins and antiques, as well as seminars and educational forums. Not unexpectedly, eBay had a large, prominent presence at the fair, and provided a number of computers for attendees to check their auctions, Bid on current auctions, or just to learn about the auction process. There were free eBay training classes, and hands-on user seminars on subjects such as scanning images and using digital cameras, as well as using HTML, a computer language, for better auction results. A \$5 fee entitled visitors access to all seminars, forums, exhibits, and dealers. There were great prizes for attendees and dealers, including laptop computers and digital cameras. I attended a number of the seminars, and learned about some new sales tools for use on the Internet and eBay. Even though well-advertised throughout the industry, and locally, the convention was poorly attended (com-

pared to the pre-show estimate of 20,000 people). Those who showed up were serious about learning the electronic selling process, and the seminars were well-attended. One theory advanced by a number of dealers who attended the show, was that individuals who trade on eBay and the Internet prefer to do so online, and not attend a coin show. It's a shame; they missed a great show and a great opportunity. There's always next year...

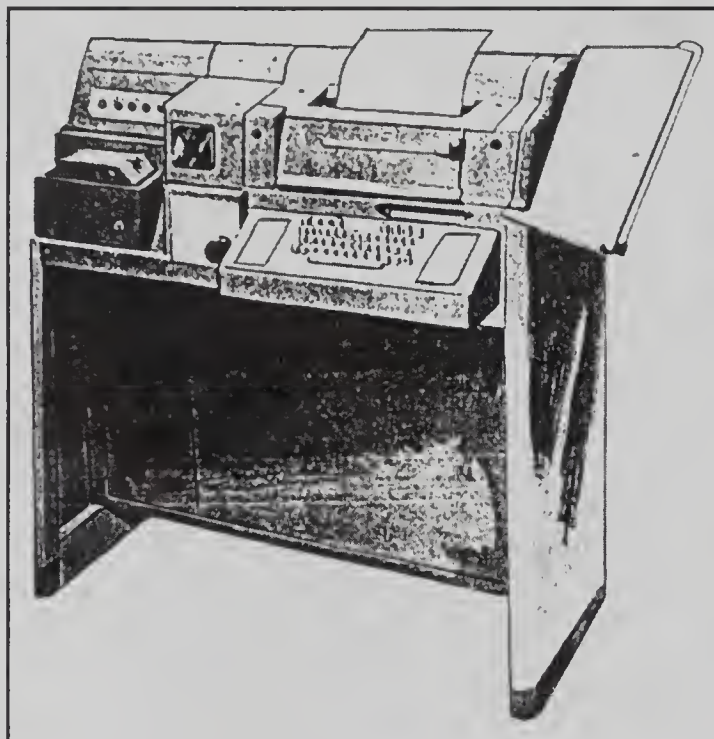

The Future of Electronic Coin Trading

I attended my first coin convention in 1966. Though I scarcely remember that event, the 2000 or so coin shows I have attended since then have changed little throughout the years. Showcases full of raw coins placed gingerly on velvet pads, and in 2X2 holders and Capital Plastic holders, have been replaced with showcases full of "slabbed," or certified, encapsulated coins, and far fewer raw coins. I envision a truly electronic coin show in the near future: Along with an electrical outlet, every table would be equipped with a computer outlet. A participating dealer could simply plug his laptop computer in, and "upload" his show inventory to a central computer's database. Other dealers (and collectors attending the show) could scan or search the entire database, finding that "hard-to-find" coin much more quickly. Instant email mes-

sages could be sent from table to table, along with buy and sell messages. As was utilized at the recent Electronic Coin Fair, live on-line auctions could be held. Of course, a live Internet feed would be available at all times, so you could access and monitor your current eBay and other online auctions, ATC and Coin Net systems, review the latest Greysheet and Bluesheet, or check on live, up-to-the-minute bullion prices. The sooner coin show promoters realize the full potential of electronic coin trading, the sooner the coin business will be ready for the next century!

Currently, the Coin Dealer Newsletter family of publications (Greysheet, Bluesheet, and Greensheet) can now be accessed on the Internet. You can register at www.greysheet.com, and for a nominal fee, view, save, and print out any current issues online the day they are published! This service marks the addition of a new, high-tech chapter to the recent history of numismatics, and is further testament to the rapidly growing and ever-changing condition of coin collecting.

A Superior Selection of Gold and Patterns

\$1.00 GOLD PIECES

NEW! 1855-C GS1 NGC MS61 POP1/1. Lots of luster. Struck from clashed dies, as usual. Minuscule mintage of just 9,803. A unique opportunity, since this is the only example graded thus by both PCGS and NGC, and just a single coin is graded slightly better. When Breen published his Encyclopedia in 1988, he wrote: "Rare. Untraced Unc." \$36,500

1857-D GS1 NGC MS60. Lots of original greenish-gold luster. Probably looks pretty much as it did when it came off the Dahlonega Mint's presses not too long after the War Between the States had ended. Very choice, nearly flawless surfaces for the grade. Breen writes: "Prohibitively rare Unc." \$11,000

1865 GS1 PCGS MS66. Breathtakingly beautiful with frosty devices and delicious original satiny luster. Virtually as struck example from "The Childs Collection" that must be seen to be fully appreciated. This is an original, described by Breen as "low date, almost level, rare." Mintage was incredibly small — only 25 pieces. An important opportunity. \$14,000

NEW! 1869 GS1 PCGS MS67. Ex-Bass Collection, where it was described as: "A wonderful brilliant and frosty yellow gold dollar. Sharply struck with considerable aesthetic appeal. Quality-wise certainly one of the highlights from the Bass Collection." Breen calls "Very scarce" in any grade. Only a half dozen have been certified in this exceptional quality by both PCGS and NGC, and only a single specimen is better. \$9900

NEW! 1870 GS1 PCGS MS67. Superb specimen carries the Bass pedigree. Close to perfect example with full original mint bloom. Tiny mintage of just 6,300; called "Very scarce" by Breen. Only about 10 have been certified in this stratospheric grade by NGC and PCGS, and there is none better. Perfect coin for the perfectionist. \$10,000

NEW! 1877 GS1 PCGS MS66 PQ/BASS. The Bass Collection catalog describes this superb coin as: "Amazing quality for the grade level. Lovely bright orange-gold lustre, reflective fields with frosty cameo devices." Just 3,900 made, called "Rare" by Breen. Combined PCGS and NGC Population Reports indicate just 11 certified in this quality, and 17 slightly better. \$8750

EARLY \$2.50 GOLD

1796 \$2 1/2 NO STARS NGC XF40. A choice example with smooth fields and devices and no adjustment marks. This is a real nice piece in a very affordable grade. There are many higher grades on the market but at a much higher price. This one should not last long at this price! \$37,500

1827 \$2 1/2 PCGS MS62. Sharply struck with frosty mint luster. Original mintage nearly 1-3/4 centuries ago was only 2,800, so it's not surprising that Breen calls it "rare." This is the last year of the short-lived Capped Head type (1821-7), and would make a great addition to an early gold type collection. \$23,500

NEW! 1831 \$2 1/2 NGC MS62 PQ. Sharp premium quality, with lots of luster. An important rarity; one of only about 60 certified (PCGS and NGC) in mint state out of the tiny mintage of 4,520. \$12,500

1838 \$2 1/2 NGC MS64. Exceptionally well struck example of the Classic Head type. Fully lustrous, with partially reflective fields. Breen writes: "in choice Unc. (as this coin certainly is), extremely rare." 6/2+0/4 The combination certified population (PCGS and NGC) in this near-gem quality is just 6, with another 6 somewhat better. A good choice for an exceptional gold type coin set. \$11,500

\$2.50 LIBERTY GOLD

NEW! 1854 \$2 1/2 NGC MS67 POP1/0. Breathtakingly beautiful. Sharp as a pin, with satiny greenish-gold luster. Uncommon quality for a rather common date. One of the nicest 1854 quarter eagles in existence, that Harry Bass called the "finest seen." For the sake of accuracy, we note that there are some parallel planchet striations on the cheek ... but this is how the coin was struck and does not represent post-minting damage. The best example of this date certified by PCGS is only MS-65, while NGC runner-ups are a trio of MS-66s. The finest known without question. \$20,500

NEW! 1855-C \$2 1/2 NGC MS65 POP 1/0. An amazing Charlotte issue. Bright satiny mint luster, exceptionally well struck. Breen calls this coin "Very rare" (in any grade). Usually VF; Extremely rare above." Breen also indicates that "centers (are) weakly struck," but this spectacular coin is an exception. Out of the 17 certified by NGC, the highest other than this coin is MS-61; and out of 44 graded by PCGS the best is MS-64. The often overused phrase "once in a lifetime opportunity" may well apply to this finest known example of a truly rare issue. \$105,000

TERMS OF SALE

1. All purchases carry a 10-Day unconditional return privilege.
2. All orders over \$1000 shipped prepaid. Otherwise, please add \$10 postage.
3. We will be happy to send coins on approval to credit-worthy customers.
4. We accept VISA, MasterCard and American Express.
5. Layaway available. Please call for terms and details.
6. We will be happy to accept coins in trade. Offer us what you have.
7. All coins are 100% guaranteed genuine.
8. California residents add 8.25% Sales Tax for orders under \$1000.

NEW! 1863-S \$2 1/2 NGC AU58. Lovely surfaces are nicer than many mint state specimens. Well struck and handsome. Tiny mintage of only 10,800, called "Rare" by Breen. Don't let the grade mislead you; there are only 2 better according to NGC and just a single superior specimen slabbed by PCGS. An important coin! \$10,500

NEW! 1892 \$2 1/2 NGC MS67. Sensational proof-lookalike first strike. Superb cameo gem, with blazing rippling fields. Mintage only 2,440. The absolute finest certified by NGC, and the highest graded by PCGS is a point lower. There's none better! \$25,000

NEW! 1892 \$2 1/2 NGC MS68. The cartwheel luster on this coin is absolutely dazzling, and must be seen to be believed. As close to perfection as any coin connoisseur would wish for. The best PCGS coin is MS-66, while the second finest example graded by NGC is MS-67. This outstanding numismatic treasure is in a class by itself! \$32,500

NEW! 1893 \$2 1/2 NGC MS67. Sharp, virtually pristine satiny luster. Impeccable greenish-gold surfaces except for lint mark across Liberty's nose (as made). The unique finest known coin in this grade according to both NGC and PCGS. What else can we say except run to the phone before this unique opportunity passes you by. \$17,500

NEW! 1884 \$2 1/2 NGC PF67 CAMEO. Dazzling premium quality cameo beauty. Fully frosted devices and ice skating rink fields. Perfect except for a couple of lint marks (which don't effect the grade). A minuscule 73 proofs were minted for this "Rare" (Breen) date. This is the one and only finest example out of all those graded by PCGS and NGC to date. A unique opportunity to acquire a true numismatic treasure. \$36,500

NEW! 1890 \$2 1/2 NGC PF66 ULT-CAM. Magnificent cameo jewel, with frosted devices contrasting with the ice skating rink fields. Premium quality example of the original proof mintage of just 93 pieces, out of which perhaps 50 or so survive today. One of only 8 elevated into the grading stratosphere by PCGS and NGC, with just 2 slightly better. \$19,750

NEW! 1891 \$2 1/2 NGC PF66 C. A cameo gem of this very scarce date. Only 80 coins struck in proof. Tied for the finest known. \$19,500

NEW! 1900 \$2 1/2 NGC PF65. Superb cameo gem. Dazzling reflective fields contrast with frosty devices. Just 205 proofs made nearly a century ago, out of which about 35 have survived in this gem quality, with 45 slightly better. ... \$13,500

THREE-DOLLAR GOLD

NEW! 1870 \$3 PCGS MS63 BASS/PQ. Ex-Bass Collection, where it was described as: "Reflective surfaces with hairlines and other scattered marks. Very sharply struck and quite attractive despite the surface impairments." Minuscule mintage of just 3,500. Described by Breen: "Business strikes are mostly EF. Some Uncs. are deceptively prooflike (as is this specimen)." Premium quality. Just 9 have been slabbed in this choice quality by PCGS and NGC, with 32 better. \$10,500

NEW! 1877 \$3 PCGS MS60 Childs. Bright prooflike fields are lightly bagmarked. Rare Mint State survivor of the tiny mintage of 1,468 business strikes. Breen indicates "Usually EF to AU." Holder carries the pedigree from "The Childs Collection." \$14,000

NEW! 1883 \$3 NGC MS65. Rippled prooflike fields give this a lovely cameo appearance. Well struck gem, with some light contact marks and a few carbon spots near the obverse edge. Far superior to those described by Breen as "most EF to Unc. survivors are nicked and scratched." 4/0+4/1 Population Reports (NGC and PCGS) tally just 7 other 65's and only 1 slightly better. \$16,500

NEW! 1885 \$3 NGC PF66 C. Breathtakingly magnificent cameo proof. Frosty devices and blazing rippled fields. Minuscule mintage of 110. Combined PCGS and NGC Population Reports lists just 8 in this superb quality with 3 slightly better. We recommend you call to reserve this numismatic treasure. \$32,500

NEW! 1887 \$3 PCGS PF64 PQ. Blazing luster with gemmy surfaces. The Bass Collection catalog indicates: Although 160 proofs were struck, it is our opinion that the majority of these went to speculators, with the result that once the novelty of ownership passed, such pieces became damaged. Today the proof population is probably no more than 75 pieces." \$12,500

NEW! 1888 \$3 NGC MS66. Delicious deep satiny mint bloom. Magnificent survivor out of minuscule mintage of just 5,000 pieces made in the penultimate year of this short-lived denomination. A few minor contact marks on obverse can't detract from this coin's substantial eye-appeal. Population of just 15 (PCGS and NGC) in this superb quality, with only a single specimen slightly better. \$16,500

EARLY \$5.00 GOLD

1795 \$5 SM EAGLE Uncertified AU50 CL. Well struck and quite pleasing. No adjustment marks, but faint wipe marks in fields can be seen under strong magnification. Decent example of the popular first year of issue, that had a minuscule mintage of just 8,707 pieces. \$13,000

NEW! 1798 \$5 LG EAGLE PCGS AU50. Ex-Bass, where it was described as: "Light greenish gold with faint orange on the highest points. Very attractive with traces of luster remaining." This is variety with large 8, 13 stars reverse. Worthy of serious consideration, unless you want to shell out a lot more for one of only 17 mint state examples certified by PCGS and NGC. \$9250

NEW! 1804 \$5 NGC MS61 PQ. Very sharply struck with lots of prooflike luster around the devices. Variety with small 8, and repunched 4 (high 4 over low 4). Usual contact marks and small scratch in obverse left field. \$10,500

More Gold and Patterns from Superior

(continued from previous page)

NEW! 1811 \$5 PCGS MS62 PQ. Ex-Bass Collection, where it was described as: "Sharply struck and pleasing. Frosty greenish gold lustre with scattered (minor) abrasions." This is variety with small 5 (Breen #6464). \$10,500

\$5.00 LIBERTY GOLD

1846-D/D \$5 NGC MS61. Well struck for a Dahlonega issue, with nice luster. Interesting variety with "mintmark first punched far too high, then corrected" (Breen #6565). Breen goes on to call this "Prohibitively rare Unc." The combined certified population (PCGS and NGC) is just 4 in this grade, and only 6 higher. \$11,000

NEW! 1851 \$5 NGC MS63. Matte frosty surfaces remarkably contact mark free. Called "Extremely rare above AU" by Breen. This is borne out by the fact that only the Pittman specimen is graded higher! \$9250

NEW! 1863 \$5 PCGS PF64 CHILDS. An amazing coin carrying the Childs Collection pedigree. It was described as follows in the Childs catalog: "This lovely jewel has deeply mirrored greenish yellow fields and bright (frosted) golden cameo devices. The contrast between fields and devices is incredible. Every design detail is sharply defined. A few very light hairlines are visible in the fields, not unusual on early Proof gold coins." All we can add is "Amen." Out of the original minuscule mintage of 30 pieces, just 7 pieces have been certified in this near-gem quality, with only 2 slightly better. Would'deligh any coin connoisseur. \$57,500

NEW! 1870-CC \$5 PCGS AU55. A choice example of this key date from the Carson City Mint. \$23,500

NEW! 1870-S \$5 PCGS AU55. Glossy surfaces, showing light contact and wipe marks. Nevertheless, an important coin, described by Breen as: "Rare. Usually in low grades; prohibitively rare EF." There are a total of just 5 certified in this grade by PCGS and NGC, and none finer. Here's your rare opportunity to own the best! \$9500

NEW! 1890 \$5 PCGS MS66. Superb example with bright prooflike fields. Minor contact marks and two small alloy spots shouldn't deter any collector from acquiring this finest known example of a date that is described by Breen as "Very rare (in any grade) and prohibitively rare in Unc." Tiny mintage of only 4,240. This is finest known by a long shot; next best PCGS and NGC slabbed coins are only MS-63. \$33,500

EARLY \$10.00 GOLD

NEW! 1795 \$10 NGC MS62. Sharply struck example of earliest variety, with 13 leaves. None of the usual adjustment marks, though there are light wipe marks in fields. Breen writes that "approximately 3% (of original mintage of just 5,583) survive, mostly VF to AU with possibly a couple of dozen somewhat prooflike Uncs. saved as first of their kind. One of these went to George Washington at Mount Vernon." \$61,000

NEW! 1797 \$10 SM EAGLE PCGS AU55. Some luster peeks through the lightly bag marked fields. Minuscule mintage of just 3,615 pieces of the last year of the Small Eagle reverse. Breen indicates: "Very rare. Possibly 25-30 VF to AU, 5 or 6 Unc." Population Reports (NGC and PCGS) compiled 10 years after Breen's Encyclopedia was published, confirms his figures, with 12 graded AU-55, as is this specimen, and only 8 better. \$77,500

NEW! 1797 \$10 LG EAGLE NGC MS61. Still lots of original mint luster, especially in reverse field. Well struck with no adjustment marks. First year with Heraldic Eagle reverse. Variety with "cross" star arrangement on reverse (Breen #6834). Breen indicates the sub-variety "with break between ER to leaf is much rarer" (as is this coin). 13/9+9/13 Population Report (PCGS and NGC) tabulate just 22 in this grade and only 22 slightly higher out of the original low mintage of 10,940. \$19,500

\$10.00 INDIAN GOLD

NEW! 1913-S \$10 NGC MS64. A choice and desirable example close to the gem quality. Very sharp feathers, sharp rims and resplendent eagle on the reverse. The color which is mainly warm gold, has accents of coppery orange at the rims on the reverse. \$41,500

1920-S \$10 PCGS MS63. Deep frosty luster, well struck. An attractive and desirable example of this very rare date. Breen indicates that most of the modest mintage (126,500) were melted. Just 7 coins have been certified in this grade by PCGS and NGC, and only 7 better, attesting to the rarity. An important opportunity for the serious collector. \$37,000

\$20.00 LIBERTY GOLD

1862-S \$20 NGC MS61. Nice luster, and a decent strike of this elusive date, that Breen calls "Prohibitively rare Unc." Contact marks are far fewer than usually seen on these early Double Eagles. 2/1 There's just one other example slabbed in this quality by both PCGS and NGC, and only a single specimen that's better. So this is a truly rare opportunity. \$12,000

NEW! 1865-S \$20 NGC MS64. This beauty, from the famous Brother Jonathan shipwreck, takes your breath away with its exceptionally clean surfaces. Frosty, gemmy and pedigreed ... what more could you want? \$10,250

NEW! 1890 \$20 NGC MS66. Magnificent frosty greenish-gold surfaces. Unbelievably sharp details and virtually pristine satiny luster. An early strike with top of higher 1 clear. This is the highest grade assigned by NGC, with the next best 3 points less. The highest PCGS grade is just MS-64. For those who want the very best, no questions asked! \$47,500

NEW! 1892 \$20 NGC MS66. The most dazzling cartwheel luster we can remember seeing on any coin. Superb greenish gold rippling surfaces. The rarity and desirability of this coin cannot be overstated. Breen writes: "Possibly 16-20 business strikes survive (out of original minuscule mintage of 4,410), of which 3 or 4 are Unc." Actually, more are now known, but the highest grade previously assigned by NGC and PCGS is only 64. So nothing else comes close! \$57,500

NEW! 1893 \$20 NGC MS66. Magnificent, breath-taking gem. Frosty original mint bloom on greenish-gold surfaces. A couple of minor contact marks away from perfection. The highest grade assigned By PCGS is only MS-64, while there are two other NGC MS-66s and just one finer. On the other hand, this is by far the finest example certified by NGC, with second best off by 2 points. So we unashamedly call this the finest known! \$47,500

1896 \$20 NGC PR66 Cameo. Wow! Here's a magnificent cameo gold Double Eagle that will excite the most jaded collector. Deeply frosted devices contrast with the dazzling luster of the mirrorlike fields. Of the tiny mintage of just 128 proofs, Breen writes "Possibly 20-25 survive, some impaired." This is one of only 5 Cameo Proofs certified by NGC, and there is none better. A call to (800) 421-0754 is strongly recommended to acquire this important rarity. From the Pittman Sale, where it realized over \$125,000. \$81,000

\$20.00 SAINT GAUDENS

NEW! 1908-D \$20 NO MOTTO PCGS MS66 POP 1. Spectacular eye appeal. It pops! Blazing satiny mint bloom, and virtually pristine surfaces. A magnificent No Motto type double eagle. This is the one and only specimen certified in this superb quality by PCGS, while just 2 have been granted this stratospheric grade by NGC. Here's your chance to own the best! \$25,000

NEW! 1911-S \$20 NGC MS66. Superb example, with bright satiny luster, of one of the world's most beautiful coins, created by America's greatest living sculptor — Augustus Saint-Gaudens. Sadly, he died in the same year (1907) that his numismatic masterpiece first appeared. Mintage of 1911-S Double Eagles was just 775,750, and few have survived in the exceptional quality of this specimen. In fact no examples have been graded better by either of the two leading grading services (PCGS and NGC). \$10,500

1927 \$20 PCGS MS67. A truly superb example of this type, with breathtakingly beautiful satiny luster. Will please the perfectionist! PCGS has assigned this stratospheric grade to just 4 coins ... and none better. NGC has slabbed only 2 in this premium quality and none better. An important opportunity. \$11,250

1929 \$20 PCGS MS65. Magnificent blazing satiny luster. An important opportunity to acquire a true gem example of a rare Double Eagle with an estimated "60 survivors," according to Breen. Breen goes on to explain that "relative rarity of the later dates (such as this coin) owes less to limited mintages than to extensive meltages and random survival of specimens in French and Swiss banks during the decades after the Great Recall of 1933-34." PCGS has slabbed only a dozen other examples of this date and grade, and just one slightly higher. We suggest a call to (800) 421-0754 to reserve this exceptional 20th century rarity. \$39,500

NEW! 1930-S \$20 PCGS MS64. A very choice example of this much sought after key date. Deep golden toning and a real beauty. This is the most sought after date of the series and in a very affordable grade. This one will move quickly! \$37,000

TERRITORIAL GOLD

NEW! HUMBERT \$50 RE 1851 880 NGC XF40. Pleasing example of this classic territorial gold piece, issued by the US Provisional Branch Mint in San Francisco in the midst of the Gold Rush. Usual bag marks and minor edge dings. All elements of the design clear except for the legend near the obverse edge from 11 to 1 o'clock. \$8950

NEW! MINER'S BANK \$10 NGC AU58. Obverse is bright, sharp and has only minor contact marks. Reverse has more extensive bag marks, but these don't detract from the overall design. The quality is surprisingly good for this "very rare" Territorial Gold coin, considering that these were made "using the ancient hammer method as coining presses were unavailable" (Breen). This is the one and only coin issued by this producer. \$27,500

NEW! NORRIS,GN \$5 1849 R.E. NGC MS62. Variety with period after ALLOY and reeded edge (Breen #7790). Bright yellow gold with some orange toning. Well struck, with minor bag marks. Made by trio of New Yorker ironmongers who came west for the Gold Rush. This is the finest example certified by PCGS, with the next best being only a 60. The highest example slabbed by NGC is a 60. So this is best certified example, with nothing else close! \$25,000

NEW! WASS MOL \$5 SM HEAD PCGS AU53. A very choice example and one of the finest known of this scarce type. \$12,000

WASS MOL \$20 SM HEAD NGC AU53. Very rare, one of only 3 slabbed by NGC in all grades. Struck by a pair of Counts, who had set up an assay office in San Francisco. They had been freedom fighters in the Hungarian War of Independence. They abandoned their coinage when the San Francisco Mint was established. Their current rarity is due to the fact that "most were eventually melted for conversion to federal coins" (Breen). This is the only small head variety, probably resulting from using the Ten Dollar denomination punch of Ms. Liberty on the larger Twenty Dollar die. Usual bag marks, but overall quite pleasing. \$29,500

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together," bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

Selected Rarities from...

Jay Parrino's The Mint, LLC

Stunning Mint State 1877 Indian PCGS MS-65RD

Superb and totally original 100% mint red. If you have waited for just the right one, this is it. **\$32,500**

Superb Gem 1909-S V.D.B. ICG MS-67RD

Absolutely super gem example of the most famous and desired Lincoln cent. Cannot be improved upon. **\$14,500**

Complete 3C Nickel Set 1865-1889 PCGS Proof-65

A labor of love. Every coin is totally original and matched. All reside in sequenced PCGS holders. Nice (original) sets are becoming impossible to assemble in today's market. **\$39,500**

Complete Shield Nickel Set PCGS Proof-65

From the same source as the above set. All matched, original and sequenced. A beautiful set that includes the excessively rare 1867 With Rays. **\$129,500**

Finest Known 1797 Dime NGC MS-66

From the famed Pittman collection. A wonderful, original gem sporting a full strike, wonderful golden-blue color and exceptional eye-appeal. **\$79,500**

The Unique 1876-CC Proof Dime PCGS PR-65

A superb "real proof" example of perhaps, the most desired Carson City coin. Deep, highly reflective fields layered in light gold and violet colors. A monster. **\$250,000**

Monster Gem 1916-D Mercury NGC MS-66FB

Blasty white gem with fully split bands and a fabulous "look." If you have wanted a pure white example of this, the most desired date in the series, look no further. A stellar example. **\$55,000**

Superb Gem 1913-S Barber Quarter PCGS MS-67

One of the "Big Three" keys and a perfectly wonderful example. White with a bold strike. A superb example that can not be improved upon. **\$37,500**

Gem 1916 Standing Liberty PCGS MS-66FH

"Fresh" and original. Stunning untuned surfaces and a super strike. The most famous date in the series. **\$27,500**

Super Gem 1918/7-S Quarter NGC MS-66

The rarest and most desired silver coin minted in the 20th century. Absolutely beautiful in every respect. You should own this coin. **\$125,000**

Monster Gem 1877 Trade Dollar NGC PR-67

The finest example of this tough date. Original and virtually perfect. From the Eliasberg Collection. The right coin, the right grade. **\$32,500**

Blast White Gem 1884 Trade Dollar NGC PR-65

Wonderful example of this famous rarity. Lovely cameo-effect lends to this gem's eye-appeal. The second lowest mintage Silver Dollar 10. **P.O.R.**

NEW ORLEANS GOLD COINS A DATE BY DATE ANALYSIS

PART ONE:

GOLD DOLLARS – HALF EAGLES

by Douglas Winter

The New Orleans Mint produced gold coins from 1839 through 1906. During this period, twelve different major design types were produced, encompassing six denominations. These coins range from relatively common to exceedingly rare and are all interesting, collectible issues.

1. GOLD DOLLARS

DATES OF ISSUE: 1849-1853, 1855

TYPES: Type One (1849-1853) Type Two (1855)

1849-O: A popular first year of issue which is common in grades up to MS-61; becomes scarce in MS-62 and rare in MS-63 or better. Usually well struck; often with pretty green-gold color.

1850-O: The rarest New Orleans gold dollar. Scarce in all grades and rare in Uncirculated; almost impossible to find above MS-62. Very undervalued in higher grades. Usually seen with grainy surfaces; often cleaned.

1851-O: The second most common issue and a date that can be found up to MS-62 without much difficulty; becomes scarce in MS-63 and rare in higher grades. Usually found well struck and a good type coin because of its excellent appearance.

1852-O: A scarce and underrated issue that is usually seen in lower grades; very scarce in lower Mint State grades and rare in MS-62 or better. Often weakly struck at the centers but original coins show lovely orange-gold and green color.

1853-O: The most common New Orleans gold dollar but less available than its mintage figure of 290,000 would suggest. Obtainable up to MS-63 but rare above this; often comes well struck and lustrous.

1855-O: A very popular one year type coin; overvalued relative to its rarity as are all Type Two gold dollars, but its high level of demand justifies its price level; Mint State coins are often low end and poorly struck. Population figures for MS-63 and MS-64 coins seem inflated due to regrades, and this is a truly rare issue in higher grades.

OVERALL ANALYSIS: This is a short, easily completed series. An AU-55 to Mint State-62 set is well within the budget of most collectors and an all Mint State set is not unfeasible or prohibitively expensive.

2. QUARTER EAGLES

DATES OF ISSUE: 1839-1843, 1845-47, 1850-1852, 1854, 1856-57

TYPES: Classic Head (1839; Liberty Head (1840-1857)

1839-O: A one year type coin that, like the 1855-O gold dollar, is overvalued but popular enough to justify its price level. A few dozen are known in Mint State and any coin grading MS-62 or better is rare. Two varieties are known: High Date, Wide Fraction and Low Date, Close Fraction.

1840-O: Historically significant as the first Liberty Head quarter eagle from New Orleans and a very scarce coin above AU-50; very rare and underrated in Mint State. Often found poorly struck. Two varieties known: Large Mintmark and Small Mintmark. The best I know of is the Ex: Eliasberg coin now in the Bass collection.

1842-O: One of the rarest New Orleans quarter eagles. Usually seen in low grades; scarce in EF, rare in AU and very rare in Mint State. Most are poorly struck and have inferior planchets; well struck examples should carry a large premium. Two or three exist in MS-63 with the best of these in a Nevada collection.

1843-O Small Date: The most common New Orleans quarter eagle; easily located in most Circulated grades but surprisingly rare and significantly undervalued in Mint State. Extremely scarce above MS-62 and unknown in Gem. Often seen with die rust on the surfaces.

1843-O Large Date: Much rarer than its Small Date counterpart and actually one of the rarest New Orleans quarter eagles. Usually seen in Extremely Fine and very scarce in AU. Around 12-15 are known in Mint State; I have never seen one better than MS-62.

1845-O: Only 4,000 struck and easily the rarest quarter eagle from this Mint. In fact, this is one of the hardest Liberty Head quarter eagles of any date; very undervalued in comparison to comparable C&D issues. Perhaps a dozen are known in AU plus two or three in Mint State. Original, problem-free pieces are extremely hard to locate. The finest known was just offered in the 1999 ANA sale.

1846-O: Relatively common in lower grades but becomes scarce in AU and very rare in Mint State with around a dozen known. Many are found with very weak strikes. The example from the Pittman sale (later graded MS-66 by NGC) sold for \$121,000 which is a record price for any New Orleans quarter eagle.

1847-O: More available than the 1846-O in Circulated grades and less rare in Mint State but still a very tough issue with probably no more than two dozen known in Uncirculated condition. Another issue that is often found with poor strikes. Sharp examples exist and should sell for strong premiums. An MS-65 in a Louisiana collection is the finest known.

1850-O: Similar in rarity to the 1847-O in Circulated grades; slightly rarer in Mint State. Around 12-15 are known in Mint State with most of these in MS-60 to MS-62 grades; extremely good value in this grade range at current levels. The very choice example from the 1999 ANA sale is the finest known.

1851-O: One of the more available of the "medium rarity" N.O. Quarter eagles but still a very scarce coin in AU and a rarity in Mint State. About 12-14 are known in Mint State. Weak strikes are a problem with this date as on most New Orleans quarter eagles. A lovely MS-65 exists, and this is in a private collection.

1852-O: Similar in overall rarity to the 1850-O and 1851-O but a bit more common in AU grades; another rare and very undervalued date in Mint State with 10-12 known. Frequently seen with weak strikes but easier to locate with good detail than the 1840's dates.

1854-O: Along with the 1843-O Small Date, the only New Orleans quarter eagle that is common in Circulated grades. In Mint State, this is a very scarce and surprisingly undervalued issues. I have never seen one better than MS-63, and just two or three at that level.

1856-O: A true "sleeper" and one of the hardest quarter eagles of any date to find in higher grades. Around 6-8 known in Mint State with none better than MS-62. Many are found with weak centers and poor luster. The only Uncirculated example to sell in some time was the NGC MS-61 in the 1999 ANA which was a great value at \$8,337.50

1857-O: Formerly rare but now relatively common in AU due to a small hoard; still fairly scarce in Mint State, but again, now more available due to the aforementioned hoard.

EXECUTIVE DIRECTOR Pauline Miladin
EDITOR Keith M. ZanerPUBLISHER Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

OVERALL ANALYSIS: This thirteen-issue set is completable but very challenging, especially if the collector is not willing to purchase weakly struck examples of certain dates. An all Mint State set is feasible, albeit difficult, while a nice AU set is an exceptionally good value at current levels.

3. THREE DOLLAR GOLD PIECES

DATES OF ISSUE: 1854

1854-O: Common in lower grades but very scarce and undervalued in the higher AU grades; properly graded Mint State examples are very rare. Most are seen with very weak strike and a "delicate" appearance due to die lapping and polishing. A popular one year type that still seems to have growth potential from the standpoint of price.

4. HALF EAGLES

DATES OF ISSUE: 1840, 1842-1847, 1851, 1854-1857, 1892-1894, 1909

TYPES: Liberty Head, Without Motto (1840-1857); Liberty Head, With Motto (1892-1894); Indian Head (1909)

1840-O: Unlike most first years of issue, this date was not saved and is rare and undervalued in higher grades. Usually seen well worn, abraded and in deep green-gold. An extremely undervalued coin in Mint State with fewer than ten known; the finest I have seen is the Pittman coin (graded MS-64 by NGC). Varieties are known with a Broad Mill (very rare) and a Narrow Mill.

1842-O: Tied with the 1847-O as the rarest New Orleans half eagle in terms of overall rarity (with around 45-55 known) and the rarest in high grades. This date is still unique in Mint State (the Milas/Eliasberg coin) and there are no more than 9-11 real AU's known.

1843-O Large Letters: The more common of the two varieties. Usually seen with very heavily abraded surfaces and yellowish-green color. Quite scarce in AU and rare in Mint State; around a dozen Uncirculated pieces are known including a few fairly choice ones. There were two lovely Uncs. in the Milas sale.

1843-O Small Letters: Once believed to be of similar rarity to the Large Letters variety but now known to be considerably scarcer. Usually seen in VF-EF grades and often weakly detailed due to die cracks and lapping. Very rare in full AU and an extreme rarity in Mint State.

1844-O: By far the most common New Orleans half eagle of the 1840's and an easily located date in any Circulated grade. MS-60 and MS-61 coins are not particularly scarce, but this date becomes rare in MS-62 and very rare above this. Often found with excellent frosty luster and superb green-gold or yellow-gold color. A single Proof is known in the John Murrell collection.

1845-O: An overlooked, undervalued date that is typically seen well worn, softly struck and heavily marked. Rare in AU and very rare in Mint State with approximately seven to nine known. Very good value in comparison to comparable Charlotte and Dahlonega half eagles of this era. There is a Gem in the Bass collection.

1846-O: A bit rarer than the 1845-O overall and another rare coin in the higher AU grades. In Mint State, this is a true rarity with around a half dozen known. Mostly found with a soft overall strike and unappealing surfaces. The MS-63 Milas/Eliasberg coin is the finest known.

1847-O: Tied with the 1842-O for the rarest New Orleans half eagle overall but a bit more available in AU grades. Unknown in strict Mint State and excessively rare in AU-55 or better. Often found with below average surfaces. The AU-58 Milas coin is still the best I have seen.

1851-O: Comparable to the 1846-O in terms of overall and high grade rarity. This issue is characterized by excellent luster and nice green-gold color; often weak on Liberty's hair. Rare in the higher AU grades and very rare in Mint State with around seven to nine known.

1854-O: The second most common No Motto New Orleans half eagle but much scarcer in the higher AU grades than realized and quite rare in Mint State. A well produced issue with pleasing green-gold color; sometimes found prooflike.

1855-O: A favorite of mine, and one of the most undervalued Liberty Head half eagles of any date; just a bit less available than the 1842-O and the 1847-O and a truly rare coin in AU-50 or above. I know of two or three Uncs. and none of these grade above MS-61 to MS-62. A small hoard of 10-15 coins entered the market in the summer of 1996.

1856-O: At one time, similar to the 1855-O in terms of overall rarity but more available due to a small hoard found in the mid-1990's; still very rare in AU and extremely rare in Mint State. Often seen weakly struck and nearly always on inferior planchets. The MS-62 Milas coin is currently the best known.

1857-O: The most available of the underrated 1855-1857 dates but still very scarce in all grades and rare in AU; very rare in Mint State with maybe half a dozen known. The best I've seen is a lovely PCGS MS-63 owned by a Pennsylvania dealer a few years ago.

1892-O: The rarest of the three With Motto half eagles from this Mint. This date appears not to have seen much circulation as it is usually in AU grades. It is rare in Mint State and appears to be unknown above MS-63. Almost all known are excessively abraded.

1893-O: Common in all Circulated grades and not hard to locate in the lower Mint State grades. Becomes scarce in properly graded MS-62 and very rare above this. A hoard of two dozen or so Mint State-60 to Mint State-62 coins entered the market in the mid 1990's.

1894-O: A much scarcer coin than the 1893-O as its lower mintage figure would suggest. Most Mint State examples are excessively abraded and have satiny, slightly reflective surfaces. I have never seen one better than MS-63 and just one or two at that level.

1909-O: The only Indian Head half eagle from New Orleans and very popular as a result. Common in "slider" but very scarce in real Mint State and quite rare in MS-63 and above. The best I have seen is the Price/Eliasberg coin that brought an incredible \$374,000 when last sold in May 1998.

OVERALL ANALYSIS: The Liberty Head half eagles from New Orleans are an interesting group of coins. The only two reasonably common Without Motto half eagles are the 1844-O and the 1854-O; neither of these is easily obtainable in Mint State. This is a very challenging set to collect in high grades. The three With Motto coins are easily obtained in the lower Mint State grades, as is the 1909-O.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

OUR MEMBERS DEMAND THE FINEST

The Members of Numismatists Online expect the best, and that's why we have worked hard to become the premier Internet auction service for coins and currency.

We set high standards for ourselves by running auctions on behalf of dealers who conduct business with utmost professionalism. Here's what just a few of our members have to say about our network of the Numismatic World's leading dealers.

R.M. SMYTHE

www.Numismatists.com/rmsmythe

"Truly a first-class operation. They have some of the finest currency in the business."

-- Simon Smith

THE TIME MACHINE

www.Numismatists.com/timemachine

"They offer a very professional service - honesty, value, and excellent communication."

-- Amgad Bassili

DAVID C. ALBANESE

www.Numismatists.com/albanese

"Very fair and intelligent. He is collector-oriented - treats you like a member of his family."

-- Glen Robinson

JAKE'S MARKET PLACE, INC.

www.Numismatists.com/jakesmarketplace

"Excellent quality coins offered, fair grading standards, and quick, friendly service."

-- William Froemke
